Please help us on 550 Crocker Street!!

This week we had couple tents set up in front of our building gates. Now, we have 6 new tents set up that's blocking the entire sidewalk and our gate. We cannot have this.

Our employees have no safe access to these sidewalks. We need to unlock/lock the gates at the beginning/end of day, but when the tents are in this close proximity it's really tough to do so. We cannot safely drive in and out of this lot.

We politely asked the encampments to move, so we can access our sidewalk and gate. However, they refused to do so... aggressively adamant that the sidewalk and our gateway access is their ground and property.

Our customers do not feel safe coming this way because of what they see.

We are a business, and if our customers are scared to come... how are we going to survive.

We need a safer environment!

Moreover, the trash and defecation situation has gotten so much worse even though ironically there's a new restroom facility right in front. More tents have set up in this area because of this new facility. We were promised a safer, cleaner environment with this facility, but I have seen no efforts here. We were promised that the workers and volunteers from

the facility will make runs across Crocker to make sure no one was using the sidewalk to defecate and urinate, but we see no efforts here.

The situation is getting worse and worse, yet we are demanded to pay more and more taxes. What do we look like? We are trying to survive, and we are always demanded so much more. What do we get in return? This horrendous circumstance. There is no respect for the tax paying, law abiding businesses and residences.

Please help!!

Please help us on 550 Crocker Street!!

This week we had couple tents set up in front of our building gates. Now, we have 6 new tents set up that's blocking the entire sidewalk and our gate. We cannot have this.

Our employees have no safe access to these sidewalks. We need to unlock/lock the gates at the beginning/end of day, but when the tents are in this close proximity it's really tough to do so. We cannot safely drive in and out of this lot.

We politely asked the encampments to move, so we can access our sidewalk and gate. However, they refused to do so... aggressively adamant that the sidewalk and our gateway access is their ground and property.

Our customers do not feel safe coming this way because of what they see.

We are a business, and if our customers are scared to come... how are we going to survive.

We need a safer environment!

Moreover, the trash and defecation situation has gotten so much worse even though ironically there's a new restroom facility right in front. More tents have set up in this area because of this new facility. We were promised a safer, cleaner environment with this facility, but I have seen no efforts here. We were promised that the workers and volunteers from the facility will make runs across Crocker to make sure no one was using the sidewalk to defecate and urinate, but we see no efforts here.

The situation is getting worse and worse, yet we are demanded to pay more and more taxes. What do we look like? We are trying to survive, and we are always demanded so much more. What do we get in return? This horrendous circumstance. There is no respect for the tax paying, law abiding businesses and residences.

Please help!!

Please help us on 550 Crocker Street!!

This week we had couple tents set up in front of our building gates. Now, we have 6 new tents set up that's blocking the entire sidewalk and our gate. We cannot have this.

Our employees have no safe access to these sidewalks. We need to unlock/lock the gates at the beginning/end of day, but when the tents are in this close proximity it's really tough to do so. We cannot safely drive in and out of this lot.

We politely asked the encampments to move, so we can access our sidewalk and gate. However, they refused to do so... aggressively adamant that the sidewalk and our gateway access is their ground and property.

Our customers do not feel safe coming this way because of what they see.

We are a business, and if our customers are scared to come... how are we going to survive.

We need a safer environment!

Moreover, the trash and defecation situation has gotten so much worse even though ironically there's a new restroom facility right in front. More tents have set up in this area because of this new facility. We were promised a safer, cleaner environment with this facility, but I have seen no efforts here. We were promised that the workers and volunteers from the facility will make runs across Crocker to make sure no one was using the sidewalk to defecate and urinate, but we see no efforts here.

The situation is getting worse and worse, yet we are demanded to pay more and more taxes. What do we look like? We are trying to survive, and we are always demanded so much more. What do we get in return? This horrendous circumstance. There is no respect for the tax paying, law abiding businesses and residences.

Please help!!

NBC Reports: LA Ignores Piles of Trash and Rats That Could Be Causing Typhus Outbreak

Downtown Industrial BID battles against trash and infestation while the extent of the health emergency on Skid Row keeps growing. Where is the City of LA in all this? See and read more below:

For months rat-infested trash has been piling up on Ceres Avenue, a street that connects downtown LA's bustling produce and garment districts. Now, health officials

say accumulations of trash like this could be a cause of an outbreak of the bacterial disease typhus.

LA's mayor is now in apology mode.

"It's disgusting and it's unacceptable," LA Mayor Eric Garcetti told NBC4, after the I-Team showed him pictures of garbage piling up for months.

When asked why the city hasn't collected trash on a city street, Garcetti responded:

"Well, it should have been. And we're going to get to the bottom of why it wasn't and make sure that it is."

There is an outbreak of typhus near downtown L.A. Here are five things to know about the disease.

The LA County Public Health Department says "typhus is a disease that infected fleas can spread to humans." The fleas often live on rodents, cats, and dogs that are drawn to garbage.

There are 57 cases of typhus reported in LA County so far this year, far higher than most years. A cluster of nine cases has been identified in what officials now call "The Typhus Zone," a section of downtown LA encompassing Skid Row and newer upscale residential housing and businesses.

"I actually kind of wanted to die, because I couldn't figure out what I had," said Van Shemirani, who owns a clothing company in the Fashion District. He told NBC4 he suffered two months of high fever and nausea before his doctors at UCLA Medical Center diagnosed him with typhus.

Shemirani says his warehouse was constantly overrun by rats, which he suspects were the cause of his typhus infection.

"I definitely think I got it from the rats," Shemirani said.

People who work in the downtown and Skid Row areas say they've complained constantly to the city's 311 number to pick up piles of trash but the calls often go unanswered.

Records obtained by the I-Team show the Department of Sanitation received more than 2,200 calls to 311 over a two-year period to pick up trash near homeless encampments but failed to respond to more than half of those calls.

"If someone is calling 311 and not getting through that's unacceptable," Mayor Garcetti told NBC4. "Things sometime slip through the cracks but this is unacceptable and I'm going to make sure that it doesn't happen, Garcetti added.

After Garcetti spoke to NBC4 about the typhus outbreak and the city's failure to control trash and rats, the Mayor's Office called the I-Team. His spokesman Alex Comisar said the city is now allocating an extra \$300,000 to cleaning up trash and sanitizing streets around the "Typhus Zone." The clean-up, according to Comisar, has already begun.

There is a typhus epidemic in LA County right now with a recent outbreak of cases around downtown LA.

Here are five things to know:

1. Typhus is not typhoid. Typhus is a disease spread to humans by fleas from dogs, cats and rats. Typhoid is a food-borne illness transmitted through contaminated food and water.
2. A typhus outbreak in LA includes people living on the streets and also workers and business people.
3. Typhus symptoms include high fever, rash, abdominal and muscle pain.
4. Typhus is rarely fatal and can be treated with antibiotics.
5. You can prevent getting typhus by using flea products on your pets and keeping away from wild animals like feral cats and rodents.

Good Morning Captains,

This afternoon at the Fashion District field office, we will be hosting a BID employee appreciation lunch. I realize the short notice and how committed your schedules are, but you are all very much welcome to join if available. Lunch will be available from noon on. Our working relationship with you plays a major role in our operational success for which we are very grateful. Hope you can come join us. The field office address is listed below. Thank you.

Cordially,

Anthony Rodriguez

Subject: Fw: meeting on Monday, 9/17

we are making progress...

From: Stephen Nichols
Sent: Friday, September 14, 2018 11:46 AM
To: Estela Lopez
Subject: Re: meeting on Monday, 9/17

Estela,
I don't know if you got my voicemail on your cell phone this morning, but...it appears that the problem may be taking care of itself. I drove by the locations at Sunset/Beaudry and Custer s/of Beaudry. Next to the CVS, there were two trash trucks, a supervisor from Caltrans and the CHP homeless detail. There was a cleanup operation in progress and it appeared that the area behind the chain link fence was being cleared. However, the concrete area next to the fenced area had transient types lounging on furniture, etc. There were no LAPD officers present that I saw. The Custer Street cul-de-sac is completely clean - or as clean as we will probably see it. The tons of trash are gone, the homeless types have disappeared, and it actually looks good. If Rampart can maintain the area, it will be a huge deal.
Let me know if/how you want to proceed.
Thanks,
Stephen

I've got us a room at the property directly across the street from the problem location. It's a convent of nuns, the Sisters of the Divine Master. 501 N. Beaudry. They have a parking lot that you enter from Beaudry. They're giving us a room for our meeting, and their property manager is very happy to host us. They are very afraid of what is taking place around them.

As you suggested, here is the information on a problem area I have not been able to address. There is a homeless encampment in an Alley between 11th and Olympic and St. Julian and Wall that continues to grow, and has a wood structure with compartments "rooms" within it. We have received information from other transients that narcotics sales and use, along with prostitution activity is allegedly occurring at this location. This site is frequented by several Hispanic males with the number "18" either tattooed on their necks, forearms, and heads. There has been an increase in 18st graffiti in the surrounding area and needle and syringes found on sidewalks. This alley along with the one across are essentially impassible.
>
> I apologize in advance to any of your subordinates for not reaching out to them first before going directly to you. As I also mentioned I have not been able to establish a professional relationship with any other LAPD resources aside from Capt. Reina and his team at Central Division. This alley falls out of the Central Divisions area but in the Newton Division area. Anything that could be done to at least put this area on the Dept.'s radar if not already would be appreciated. I have attached photos of the of the alley and a map of the Fashion district highlighting the alley in green. On the map block 40 would be the mentioned area, as well as block 28 which is directly across. Thank you for your time and service.

Joella,

You are absolutely correct on the intent for tomorrow's meeting.

I recently spoke with Captain Reina and we ironed out the unintended misunderstanding that my emails created. I was just geeking out on the data (for my own personal understanding) and my emails may have lacked the proper tone/context. So again, I apologize. The meeting isn't about the statistics, which is why I previously removed them from the presentation. The intent of the meeting is to make everyone aware of the opening of our two projects and to learn how we can all work together for the betterment of the neighborhood.

The initial idea for documenting the incidents reported on DTLA Town Square came up because there are actually a lot of people who aren't fully aware of the types of crimes that take place in downtown. When I was living in downtown, I was certainly aware of the possibility of crime and that there were crimes taking place, but I didn't see a lot of it personally. Seeing the first-hand reports of the types of crime taking place in the area made me much more aware of what was going on. I can tell you that many of our own staff that are currently living and working in downtown were not fully aware of some of the types of incidents that have occurred in downtown until I showed them these posts. So, the intent was just to create awareness for those who may not have already been aware. The slides certainly were not intended to be a point of contention, they were only intended to raise awareness. So, I will eliminate the slides from the meeting since it sounds like everyone in attendance is fully aware. And yes, thank you, I am aware of the Town Hall meeting this week and I have notified our staff.

I definitely understand that this is not just an LAPD issue. I apologize if my attempts to clearly understand the data came across differently. It certainly takes a group effort from all parties involved, including our staff and future residents, which is why we are so appreciative of everyone taking the time to meet with us so that we can make everyone aware of the delivery of our two projects, and learn how we can best assist in improving the safety and enjoyment of everyone in the neighborhood.

Thank you, and we look forward to meeting with everyone tomorrow.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hal,

I understood this meeting to be a get to know the development and a face-to-face greeting so we could all understand the long term goals of the property? And, how we can all work together to promote DTLA and this new development.

Jeff,

What's your purpose in pursuing/creating a pdf of crime from a Facebook page? We all understand the situation with transients/homeless/and the mentally ill is a major concern for marketing and selling DTLA. But, to that note... I welcome you to attend our DTLA Public Safety Town Hall coming up this Thursday from 6-730 at Ketchum YMCA where we have all key County and City reps available to address the issue. Please come to that forum - may be a better place to have that conversation.

I hope you understand that this is not purely an LAPD issue. LAPD is a partner in helping us solve many immediate issues on streets as there are severely lacking mentally health workers and overall resources. None of us are perfect in our efforts however it is a team and all of us coming together to solve our current Public Safety issues.

I'm looking forward to a constructive meeting and getting excited about the project.

Happy Labor Day!

On Sep 3, 2018, at 1:01 PM, Jeff Gromberg <jgromberg@hollandpartnergroup.com> wrote:

Captain,

I do have the contact info for the prospective tenant, but for the sake of the individual's privacy, I would like for our team to reach out to them and get their permission prior to providing their personal information. I will follow up as soon as I hear back.

Also, I would like to get some additional clarity on the % figures you previously provided. You indicated that the numbers you provided are "year-to-date". Year-to-Date indicates that you are analyzing data from Jan 1, 2018 through August 31, 2018. If this is the case, how did you come up with the % figures you presented? Are you looking at the totals for each category of crime that took place for the month of January 2018 and comparing them to the totals that took place for the month of August 2018?

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the persons statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report they we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Hello Everyone,

Attached are the updated slides for tomorrow's meeting. As previously indicated, I have removed the crime statistics from the slides. The only thing that I added for the first slide is an excerpt of an email we received on Friday from a prospective downtown resident, who was battered and robbed on the corner of 7th & Grand last Wednesday evening.

I look forward to meeting with you all tomorrow.

Sincerely,

Jeff Gromberg

Subject: RE: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Captain Marc Reina

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using “Year-To-Date” analysis, but I didn’t see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using “Year-To-Date” analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use “Year-Over-Year” analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than “Year-To-Date”. Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Sincerely,

Jeff Gromberg

Hi there. Hope this message finds you well. Happy almost Labor Day weekend.

I wanted to send you an exclusive non transferable invite to this coming Wednesday's Press Event for El Pueblo's Lot 5 Opening. It is scheduled from 9am - 10am. The event will also include a tour of the site.

Please take ride share as there is no parking available.

Confirmed speakers:

- Mayor Eric Garcetti
- Councilmember Jose Huizar
- Peter Lynn, LAHSA
- John Maceri, The People Concern
- Rob Jernigan, Gensler

Please RSVP to me directly.

I look forward to seeing you then and please let me know if you have any questions.

Best,

Captain,

I apologize for the misunderstanding. There is no motive on my part. I was only trying to better understand the stats that you provided. When I said "Ah..." in my previous email, that was a good thing. It was the moment of clarity I was looking for and I was very glad to hear that your stats were Year-Over-Year as that is a better indication of the improvements that have been made and that everyone's hard work is paying off.

Again, there is no motive on my part, which is why I removed the Crossroads data from the slides. I will also remove the email quote from our prospective resident since the alleged crime was not reported.

The purpose of the meeting was just to make everyone in the community aware that our two properties are opening soon and that there will soon be 700-800 new residents living on this block once the buildings are full. This will have a dramatic impact on the community and we will all need to work together to make things as safe and enjoyable as possible for everyone in the community.

I sincerely hope that we can continue with tomorrow's meeting as planned, as I think it will be helpful for everyone in attendance.

Sincerely,

Jeff Gromberg

Jeff,

I'm not quite sure what your motive is and why you are questioning our crime stats that I provided. We have arguably the most elaborate crime mapping systems in the country and I have been doing this for 24 years. I have an intimate understanding of what is actually reported and occurring in downtown LA.

At this point, I don't feel this meeting will be productive and in the best interest of those attending. Therefore, I'm going to advise my personnel to refrain from attending until we can accurately understand what exactly you expect to gain from it and that you have a clear understanding of what is occurring in downtown.

Respectfully,

Captain Marc Reina

Captain,

I do have the contact info for the prospective tenant, but for the sake of the individual's privacy, I would like for our team to reach out to them and get their permission prior to providing their personal information. I will follow up as soon as I hear back.

Also, I would like to get some additional clarity on the % figures you previously provided. You indicated that the numbers you provided are "year-to-date". Year-to-Date indicates that you are analyzing data from Jan 1, 2018 through August 31, 2018. If this is the case, how did you come up with the % figures you presented? Are you looking at the totals for each category of crime that took place for the month of January 2018 and comparing them to the totals that took place for the month of August 2018?

Sincerely,

Jeff Gromberg

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the persons statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report they we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Sincerely,

Jeff Gromberg

Captain,

I apologize for the misunderstanding. There is no motive on my part. I was only trying to better understand the stats that you provided. When I said "Ah..." in my previous email, that was a good thing. It was the moment of clarity I was looking for and I was very glad to hear that your stats were Year-Over-Year as that is a better indication of the improvements that have been made and that everyone's hard work is paying off.

Again, there is no motive on my part, which is why I removed the Crossroads data from the slides. I will also remove the email quote from our prospective resident since the alleged crime was not reported.

The purpose of the meeting was just to make everyone in the community aware that our two properties are opening soon and that there will soon be 700-800 new residents living on this block once the buildings are full. This will have a dramatic impact on the community and we will all need to work together to make things as safe and enjoyable as possible for everyone in the community.

I sincerely hope that we can continue with tomorrow's meeting as planned, as I think it will be helpful for everyone in attendance.

Sincerely,

Jeff Gromberg

Jeff,

I'm not quite sure what your motive is and why you are questioning our crime stats that I provided. We have arguably the most elaborate crime mapping systems in the country and I have been doing this for 24 years. I have an intimate understanding of what is actually reported and occurring in downtown LA.

At this point, I don't feel this meeting will be productive and in the best interest of those attending. Therefore, I'm going to advise my personnel to refrain from attending until we can accurately understand what exactly you expect to gain from it and that you have a clear understanding of what is occurring in downtown.

Respectfully,

Captain Marc Reina

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the persons statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report they we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic

violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using “Year-To-Date” analysis, but I didn’t see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using “Year-To-Date” analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use “Year-Over-Year” analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than “Year-To-Date”. Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am -
731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person

be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed

doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Captain Marc Reina

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using “Year-To-Date” analysis, but I didn’t see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using “Year-To-Date” analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use “Year-Over-Year” analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than “Year-To-Date”. Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am -
731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Hal,

I understood this meeting to be a get to know the development and a face-to-face greeting so we could all understand the long term goals of the property? And, how we can all work together to promote DTLA and this new development.

Jeff,

What's your purpose in pursuing/creating a pdf of crime from a Facebook page? We all understand the situation with transients/homeless/and the mentally ill is a major concern for marketing and selling DTLA. But, to that note... I welcome you to attend our DTLA Public Safety Town Hall coming up this Thursday from 6-730 at Ketchum YMCA where we have all key County and City reps available to address the issue. Please come to that forum - may be a better place to have that conversation.

I hope you understand that this is not purely an LAPD issue. LAPD is a partner in helping us solve many immediate issues on streets as there are severely lacking mentally health workers and overall resources. None of us are perfect in our efforts however it is a team and all of us coming together to solve our current Public Safety issues.

I'm looking forward to a constructive meeting and getting excited about the project.

Happy Labor Day!

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the persons statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report they we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Jeff,

I'm not quite sure what your motive is and why you are questioning our crime stats that I provided. We have arguably the most elaborate crime mapping systems in the country and I have been doing this for 24 years. I have an intimate understanding of what is actually reported and occurring in downtown LA.

At this point, I don't feel this meeting will be productive and in the best interest of those attending. Therefore, I'm going to advise my personnel to refrain from attending until we can accurately understand what exactly you expect to gain from it and that you have a clear understanding of what is occurring in downtown.

Respectfully,

Captain Marc Reina

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the persons statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report they we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Hello Everyone,

Attached are the updated slides for tomorrow's meeting. As previously indicated, I have removed the crime statistics from the slides. The only thing that I added for the first slide is an excerpt of an email we received on Friday from a prospective downtown resident, who was battered and robbed on the corner of 7th & Grand last Wednesday evening.

I look forward to meeting with you all tomorrow.

Sincerely,

Jeff Gromberg

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was

using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using “Year-To-Date” analysis, but I didn’t see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using “Year-To-Date” analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use “Year-Over-Year” analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than “Year-To-Date”. Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting &
Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is

crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the persons statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report they we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Captain Marc Reina

On Sep 1, 2018, at 8:53 PM, Jeff Gromberg <jgromberg@hollandpartnergroup.com> wrote:

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using "Year-To-Date" analysis, but I didn't see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using "Year-To-Date" analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use "Year-Over-Year" analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May

2017 to the number that occurred in the month of May 2018. This is a very different metric than “Year-To-Date”. Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the persons statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report they we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Hello Everyone,

Attached are the updated slides for tomorrow's meeting. As previously indicated, I have removed the crime statistics from the slides. The only thing that I added for the first slide is an excerpt of an email we received on Friday from a prospective downtown resident, who was battered and robbed on the corner of 7th & Grand last Wednesday evening.

I look forward to meeting with you all tomorrow.

Sincerely,

Jeff Gromberg

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such

as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Captain Marc Reina

On Sep 1, 2018, at 8:53 PM, Jeff Gromberg <jgromberg@hollandpartnergroup.com> wrote:

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using "Year-To-Date" analysis, but I didn't see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using "Year-To-Date" analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use "Year-Over-Year" analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than "Year-To-Date". Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you

can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to

increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Captain,

I do have the contact info for the prospective tenant, but for the sake of the individual's privacy, I would like for our team to reach out to them and get their permission prior to providing their personal information. I will follow up as soon as I hear back.

Also, I would like to get some additional clarity on the % figures you previously provided. You indicated that the numbers you provided are "year-to-date". Year-to-Date indicates that you are analyzing data from Jan 1, 2018 through August 31, 2018. If this is the case, how did you come up with the % figures you presented? Are you looking at the totals for each category of crime that took place for the month of January 2018 and comparing them to the totals that took place for the month of August 2018?

Sincerely,

Jeff Gromberg

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the person's statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report it, we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Hello Everyone,

Attached are the updated slides for tomorrow's meeting. As previously indicated, I have removed the crime statistics from the slides. The only thing that I added for the first slide is an excerpt of an email we received on Friday from a prospective downtown resident, who was battered and robbed on the corner of 7th & Grand last Wednesday evening.

I look forward to meeting with you all tomorrow.

Sincerely,

Jeff Gromberg

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Captain Marc Reina

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using "Year-To-Date" analysis, but I didn't see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using "Year-To-Date" analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use "Year-Over-Year" analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than "Year-To-Date". Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Sincerely,

Jeff Gromberg

Hello Everyone,

Attached are the updated slides for tomorrow's meeting. As previously indicated, I have removed the crime statistics from the slides. The only thing that I added for the first slide is an excerpt of an email we received on Friday from a prospective downtown resident, who was battered and robbed on the corner of 7th & Grand last Wednesday evening.

I look forward to meeting with you all tomorrow.

Sincerely,

Jeff Gromberg

Subject: RE: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by

shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Captain Marc Reina

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using “Year-To-Date” analysis, but I didn’t see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using “Year-To-Date” analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use “Year-Over-Year” analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than “Year-To-Date”. Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide

deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

All,

I ran our crime for that area and time and there is no report for an assault and/or robbery. I have concerns regarding the person's statement that they don't remember how they got home, yet they remember getting their phone back.

Also, the victim didn't report it. If they don't report it, we don't know about it and can't deploy or investigate properly.

Furthermore, we have seen this many times before where people claim things online, or via email to others, but when confronted, the story changes or they don't want to cooperate. This was the case in a high-profile incident streamed live on Facebook in the Historic Core months ago. What was online and what was officially reported did not match.

If you have a number or email for this person, we would like to speak with her.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Sincerely,

Jeff Gromberg

Subject: RE: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Captain,

Thank you for the clarification.

The Crosstown Crime data I was referencing included Assaults and excluded Aggravated Assaults. For reference, here is the link to their report that covers Los Angeles crime in general but also isolates Downtown on a few slides, which are the ones I was using. <https://xtown.la/2018/06/29/is-los-angeles-experiencing-a-crime-bump/>

Given the various ways to group and interpret data, I will just remove the statistics from my slides. I think the remainder of the sides are enough to raise awareness.

Sincerely,

Jeff Gromberg

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, the weather, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Furthermore, in April of 2018, we only had 74 Aggravated Assaults. Your statistics may be including minor batteries, which are Part 2 crimes and can range from a domestic violence incident to a security guard getting punched by shoplifter to a bar fight. I continually caution everyone to not stand by the numbers they see alone. One must dig into the numbers to see what category the crime is, how many occurred behind closed doors, how many could have been prevented, how many victims knew their suspect, and what is actually occurring on the streets.

Thanks,

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using "Year-To-Date" analysis, but I didn't see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using "Year-To-Date" analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use "Year-Over-Year" analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than "Year-To-Date". Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the

person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Hello Everyone,

In advance of our meeting next Tuesday 9/4/18 at 10:30am (held in the Holland Construction Office at 731 S. Spring St. Suite 202), I wanted to share with you a slide deck I put together. I'm sure everyone is aware of the nefarious activity that takes place in the area, but I just wanted to share with you some crime data I recently came across for Downtown LA.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Sincerely,

Jeff Gromberg

Jeff,

I did not take your information as a criticism. Rather, I wanted to make sure all were aware of the current crime numbers for our Division. The numbers I provided are year-to-date.

Although comparing a current month to the same month in the previous year is a analysis tool, I usually don't use it as a gauge for the overall status of crime in a division. However, it can be used to prepare for possible crime spikes due to circumstances such as summer break from school, the start of a sports season, etc...

In addition, our statistics are specific for the downtown LA area, where other online sites expand the boundaries south and east into other divisions.

Thank you, Captain Reina.

I sincerely hope that my slides did not come across as a form of criticism, as that certainly was not the intent in any way. They are only intended to raise awareness (for those who may not already be fully aware). We are all very appreciative of the efforts by LAPD and all parties involved in making Downtown a better place to live and work and we want to help be a part of the solution.

I would like to update my slides prior to our meeting to show the progress that has recently taken place as you noted below, but I would like to get further clarification on the data you provided. You indicated below that the (8) Business Improvement Districts saw a decrease in violent crime using "Year-To-Date" analysis, but I didn't see any time frame or type of analysis indicated that was used to determine the % reduction in the various crime figures noted below. For the % figures you presented below, are those figures also derived using "Year-To-Date" analysis? Please clarify.

The statistics initially included in my slides, provided by Crosstown Crimes, use "Year-Over-Year" analysis of crime data meaning they are comparing the number of crimes that occurred in the month of May 2017 to the number that occurred in the month of May 2018. This is a very different metric than "Year-To-Date". Year-Over-Year and Year-To-Date are both valid forms of data analysis, but they cannot be compared directly to one another. Nevertheless, I would like to include in my slides the improvement in crime statistics you provided. I just want to make sure that I properly note the timeframe or the type of analysis that was used to determine those figures.

Sincerely,

Jeff Gromberg

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Having been a resident of Downtown LA, I became aware of and have casually tracked some of the Downtown LA social medial groups. I was taken aback by the many personal accounts of violence and/or crime residents of Downtown LA shared on these sites, which in many cases go unreported or the general public is unaware of. Included in the attached slides are a number of screen shots detailing personal accounts of various activity in and around the location where our projects will be delivered, as well as a few statements from residents indicating that they are leaving downtown due to such activity.

As Hal previously mentioned, our goal is to help raise awareness and to be a good neighbor in an effort to increase the safety and enjoyment of everyone in the neighborhood.

I hope you all have a great holiday weekend and we look forward to meeting you all next week.

Sincerely,

Jeff Gromberg

Subject: Re: Holland Partner Group - 9/4/18 Meeting & Tour 10:30am - 731 S. Spring St. Suite 202.

Hello Everyone,

I felt it best to clarify the information provided by Jeff in the slide show he attached.

Below, please find the current and official crime statistics for Downtown Los Angeles:

Homicides are Down 40% (Please be aware than of the 21 Homicides in 2017, more than half occurred in Skid Row and 4 of the remaining Homicides were acquaintance-related.)

Robberies are Down 12%

Aggravated Assaults are Down 8.5%

Rape crime is Down 8.6%

Total Violent Crime is Down 10.4%

In addition, our division is covered by (8) Business Improvement Districts, all of which have seen a decrease in violent crime year-to-date.

Property crime is a major issue. We are up 14%, most of which is driven by thefts from inside vehicles. Victims are leaving everything from laptops to cell phones in plain view in their cars. The South Park area has been the most impacted with this crime.

I too monitor the social media accounts and can see how one would feel like things are out of control in the downtown area. However, as you can see, there is crime, but it may not be at the level some are pushing on those sites.

We are all aware of the homeless crisis in downtown Los Angeles. We have been working diligently with social service providers, both government funded and non-profit, to have them increase their outreach in the area, since the court system, should a homeless person be arrested, does not necessary get the person the services they need to address their mental illness, addictions or other issues that may have led them to be on the street in the first place.

I will not be able to attend the meeting, but we will have a supervisor and a Senior Lead Officer there to answer any questions that you may have.

Thank you,

Captain Marc Reina

Subject: Holland Partner Group Meeting 9/4 at 10:30am

Dear Joella,

Thanks for being able to meet on 9/4 at 10:30am at the Holland Construction office located at 731 S. Spring St. Suite 202.

As you know, the purpose of the meeting is discuss the pre-opening of both their towers, The Grace on Spring at 732 S Spring and The Griffin at 755 S Spring. They will give all of us a tour after our meeting, so wear close-toed flats!

As we all know, there has been a rise of very bad, sometimes violent, incidents on Spring and the surrounding neighborhood.

My hope for this meeting is to get the Holland Team well connected with your office, the LAPD and the Fashion BID (which has already begun), as well as LA County Mental Health, so we can best prevent, manage and respond to these issues and Holland can lease up their units.

If you would invite LA County Mental Health, that would be great.

Capt Reina and Rena, I'm hoping both of you can and/or your senior officers can attend.

Jeff will invite his team members. Sharif Aly is the GM for both properties.

Subject: Holland Partner Group Meeting 9/4 at 10:30am

Dear Joella,

Thanks for being able to meet on 9/4 at 10:30am at the Holland Construction office located at 731 S. Spring St. Suite 202.

As you know, the purpose of the meeting is discuss the pre-opening of both their towers, The Grace on Spring at 732 S Spring and The Griffin at 755 S Spring. They will give all of us a tour after our meeting, so wear close-toed flats!

As we all know, there has been a rise of very bad, sometimes violent, incidents on Spring and the surrounding neighborhood.

My hope for this meeting is to get the Holland Team well connected with your office, the LAPD and the Fashion BID (which has already begun), as well as LA County Mental Health, so we can best prevent, manage and respond to these issues and Holland can lease up their units.

If you would invite LA County Mental Health, that would be great.

Capt Reina and Rena, I'm hoping both of you can and/or your senior officers can attend.

Jeff will invite his team members. Sharif Aly is the GM for both properties.

My office is working with the COP scheduler. As you might imagine his calendar is full in the coming weeks. But if it will be okay I can meet immediately with the Board and bring Chief Scott as well. Let me know your preference.

Deputy Chief,

I hope all is well. We spoke earlier this week about setting up a meeting to discuss the aggressive behavior in DTLA with you and Chief Moore. Have you been able to get a date for such a meeting? The plan is to invite the BID leaders and a couple of their Board members. Members of my board are particularly concerned because of the sexual battery/assault that occurred last weekend as well as the increasingly volatile environment for our BID staff.

Please let me know what you think. Thanks!

Cap,

The recipient list has been updated and is accurate now for LTs, Sgts, Dets, PO 3+1s, PO 3s, and officers. The outside entities - CAD is working on them and will be updated each crime control meeting, and I'll also check the list with Flanagan too.

Cliff

Clif,

Take a look at the recipients on this email. Probably something we can purge..... Rich Thomas, Shawn Gregory, etc...

As far as the outside entities, ask Flanagan who they are before we cut them from the roster. And if we do, and someone calls, we can assess whether they should still be receiving this information.

Thanks,

Captain Marc Reina

Clif,

Take a look at the recipients on this email. Probably something we can purge..... Rich Thomas, Shawn Gregory, etc...

As far as the outside entities, ask Flanagan who they are before we cut them from the roster. And if we do, and someone calls, we can assess whether they should still be receiving this information.

Thanks,

Captain Marc Reina

Clif,

Take a look at the recipients on this email. Probably something we can purge..... Rich Thomas, Shawn Gregory, etc...

As far as the outside entities, ask Flanagan who they are before we cut them from the roster. And if we do, and someone calls, we can assess whether they should still be receiving this information.

Thanks,

Captain Marc Reina

Clif,

Take a look at the recipients on this email. Probably something we can purge..... Rich Thomas, Shawn Gregory, etc...

As far as the outside entities, ask Flanagan who they are before we cut them from the roster. And if we do, and someone calls, we can assess whether they should still be receiving this information.

Thanks,

Captain Marc Reina

Q3 2018 Issue

In This Issue:

- Councilmember and Staff Tour District
- District Service Stats: April – June 2018
- Cleaning Up the District on TV
- Ray Lopez BID Officer of the Year

Councilmember and Staff Tour District

Los Angeles City Councilmember Jose Huizar and members of his staff toured the Industrial District BID on May 3, led by BID Chairman Mark Shinbane and Executive Director Estela Lopez. This was an opportunity for these key stakeholders to see first-hand the extensive impact of sidewalk encampments throughout our district. Accompanying the Councilmember were Council Office Director Joella Hopkins and Deputy Edna Degollado, both of whom have visited us before in meetings and on the street, and are acutely aware of the issues we face on a daily basis.

District Service Stats: April - June 2018

For the first six months of 2018, the District continued to experience rising trash, with a total of 56,944 bags collected, 11% higher than first half 2017, and each month of 2018 higher than the same month last year. Bags collected topped 10,000 this May.

Pressure wash requests continued to soar this year with 1,794 washings compared to 547 during first half 2017, up 228%. The BID provides pressure washing to address public health hazards from bodily fluids and waste on sidewalks and in business doorways.

Conversely, less graffiti was removed for the first half of 2018 with 476 overall actions versus 627 through June 2017.

Cleaning Up the District on TV

This past June 14, NBC TV aired an 11 minute video newscast, An Everyday Challenge: Tackling Trash Cleanup on Skid Row. Through long-range aerial shots and personal close-ups, the program documented the tremendous challenge we face in the District every day, featuring the efforts of our diligent maintenance and security professionals on the front lines.

Ray Lopez BID Officer of the Year

We're proud to congratulate BID Officer Ray Lopez for his award as the 2018 Officer of the Year for the Downtown L.A. Industrial BID. Officer Lopez received his award on April 18th at a ceremony and luncheon sponsored by the LAPD Central Area Police Boosters held at the Los Angeles Athletic Club.

Each year the Boosters select one public safety officer from each of the Downtown BIDs for this honor.

Good afternoon,

Please be advised that due to time constraints, LASAN was not able to address 1001 E 7th Street on 7/30. The location showed as number four on the list.

After working with Field Deputy Edna Delgado (CD 14), the location has been scheduled as a priority CSLA clean-up for August 7th.

Authorization # 180629005

I will advise Estella Lopez as well.

Please feel free to contact me if you have any questions.

Thank you,

Senior Lead Officer Monique Contreras

Good morning Commander,

I spoke with Sgt. Payan this morning. LAClean Streets was suppose to clean that location yesterday and did not show up. Payan will follow-up this morning and find out when the location will be cleaned.

In the meanwhile, Payan will address the other issues listed on the email and contact the community member. I will get back to you with an update.

Subject: Homeless camp at 1001 E. 7TH STREET

Joella Hopkins / Edna Degollado

Hello, your name is referred by Estela Lopez of CCEA. I would like to bring out a few issues to get help from your office.

For past several months, we saw a bunch of illegal camps occupying the block in the 7th street between Gladys Ave and Ceres Ave. Before, I didn't have this much problem near this building. Right now, there are seven business entities in this building and here I list the problems and complaints due to the homeless camps.

1. Health and sanitation Issue: We find human wastes were tossed into the fence and left along side the tents. Also, tenants found rats coming into building and live around them, and I called the pest

control company. This 7th street need to be cleaned like other streets regularly.

2. Theft Issue : They stole the chain-link fences from side street and used as supporting wall of canopy tent.

3. Hazard of Fire Issue: They use cooking devices next to the wall and nearby, and it is very danger for fire. Also, I noticed the burn marks on the wall.

4. Illegal Electric Usage Issue: I found they use electricity connected from the street pole with opened cords.

5. Loosing business issue: Visiting customers are afraid of coming to the businesses due the blocking street traffics and odors.

6. Loosing tenants issue: Current tenants do not want to renew or extend the lease due the situations we have. If we loose the tenants and business, how we could afford or handle the property taxes and business taxes.

Definitely, we need do something about this and I politely ask your help and support about these issues.

Sincerely,

Simon Kim

Subject: Re: Homeless camp at 1001 E. 7TH STREET

Good afternoon,

Please be advised that due to time constraints, LASAN was not able to address 1001 E 7th Street on 7/30. The location showed as number four on the list.

After working with Field Deputy Edna Delgado (CD 14), the location has been scheduled as a priority CSLA clean-up for August 7th.

Authorization # 180629005

I will advise Estella Lopez as well.

Please feel free to contact me if you have any questions.

Thank you,

Good morning Commander,

I spoke with Sgt. Payan this morning. LAClean Streets was suppose to clean that location yesterday and did not show up. Payan will follow-up this morning and find out when the location will be cleaned.

In the meanwhile, Payan will address the other issues listed on the email and contact the community member. I will get back to you with an update.

Subject: Homeless camp at 1001 E. 7TH STREET

Joella Hopkins / Edna Degollado

Hello, your name is referred by Estela Lopez of CCEA. I would like to bring out a few issues to get help from your office.

For past several months, we saw a bunch of illegal camps occupying the block in the 7th street between Gladys Ave and Ceres Ave. Before, I didn't have this much problem near this building. Right now, there are seven business entities in this building and here I list the problems and complaints due to the homeless camps.

1. Health and sanitation Issue: We find human wastes were tossed into the fence and left along side the tents. Also, tenants found rats coming into building and live around them, and I called the pest

control company. This 7th street need to be cleaned like other streets regularly.

2. Theft Issue : They stole the chain-link fences from side street and used as supporting wall of canopy tent.

3. Hazard of Fire Issue: They use cooking devices next to the wall and nearby, and it is very danger for fire. Also, I noticed the burn marks on the wall.

4. Illegal Electric Usage Issue: I found they use electricity connected from the street pole with opened cords.

5. Loosing business issue: Visiting customers are afraid of coming to the businesses due the blocking street traffics and odors.

6. Loosing tenants issue: Current tenants do not want to renew or extend the lease due the situations we have. If we loose the tenants and business, how we could afford or handle the property taxes and business taxes.

Definitely, we need do something about this and I politely ask your help and support about these issues.

Sincerely,

Simon Kim

I just spoke with Bladimir. He advised me that he has not received a report indicating that the location was not cleaned. However, Sgt. Payan informed me that he was at the location yesterday and the cleaning crew did not show. I asked Bladimir if we would be able to get a cleaning crew out today. He was unable to confirm that as being possible, and could not give me a future time for cleaning. He advised that he will work on the issue. I assured Bladimir that RESET will provide a unit at their earliest convenience.

Subject: Re: Homeless camp at 1001 E. 7TH STREET

I just spoke with Bladimir. He advised me that he has not received a report indicating that the location was not cleaned. However, Sgt. Payan informed me that he was at the location yesterday and the cleaning crew did not show. I asked Bladimir if we would be able to get a cleaning crew out today. He was unable to confirm that as being possible, and could not give me a future time for cleaning. He advised that he will work on the issue. I assured Bladimir that RESET will provide a unit at their earliest convenience.

Good morning Commander,

I spoke with Sgt. Payan this morning. LAClean Streets was suppose to clean that location yesterday and did not show up. Payan will follow-up this morning and find out when the location will be cleaned.

In the meanwhile, Payan will address the other issues listed on the email and contact the community member. I will get back to you with an update.

Joella Hopkins / Edna Degollado

Hello, your name is referred by Estela Lopez of CCEA. I would like to bring out a few issues to get help from your office.

For past several months, we saw a bunch of illegal camps occupying the block in the 7th street between Gladys Ave and Ceres Ave. Before, I didn't have this much problem near this building. Right now, there are seven business entities in this building and here I list the problems and complaints due to the homeless camps.

1. **Health and sanitation Issue:** We find human wastes were tossed into the fence and left along side the tents. Also, tenants found rats coming into building and live around them, and I called the pest control company. This 7th street need to be cleaned like other streets regularly.
2. **Theft Issue :** They stole the chain-link fences from side street and used as supporting wall of canopy tent.
3. **Hazard of Fire Issue:** They use cooking devices next to the wall and nearby, and it is very danger for fire. Also, I noticed the burn marks on the wall.
4. **Illegal Electric Usage Issue:** I found they use electricity connected from the street pole with opened cords.
5. **Loosing business issue:** Visiting customers are afraid of coming to the businesses due the blocking street traffics and odors.
6. **Loosing tenants issue:** Current tenants do not want to renew or extend the lease due the situations we have. If we loose the tenants and business, how we could afford or handle the property taxes and business taxes.

Definitely, we need do something about this and I politely ask your help and support about these issues.

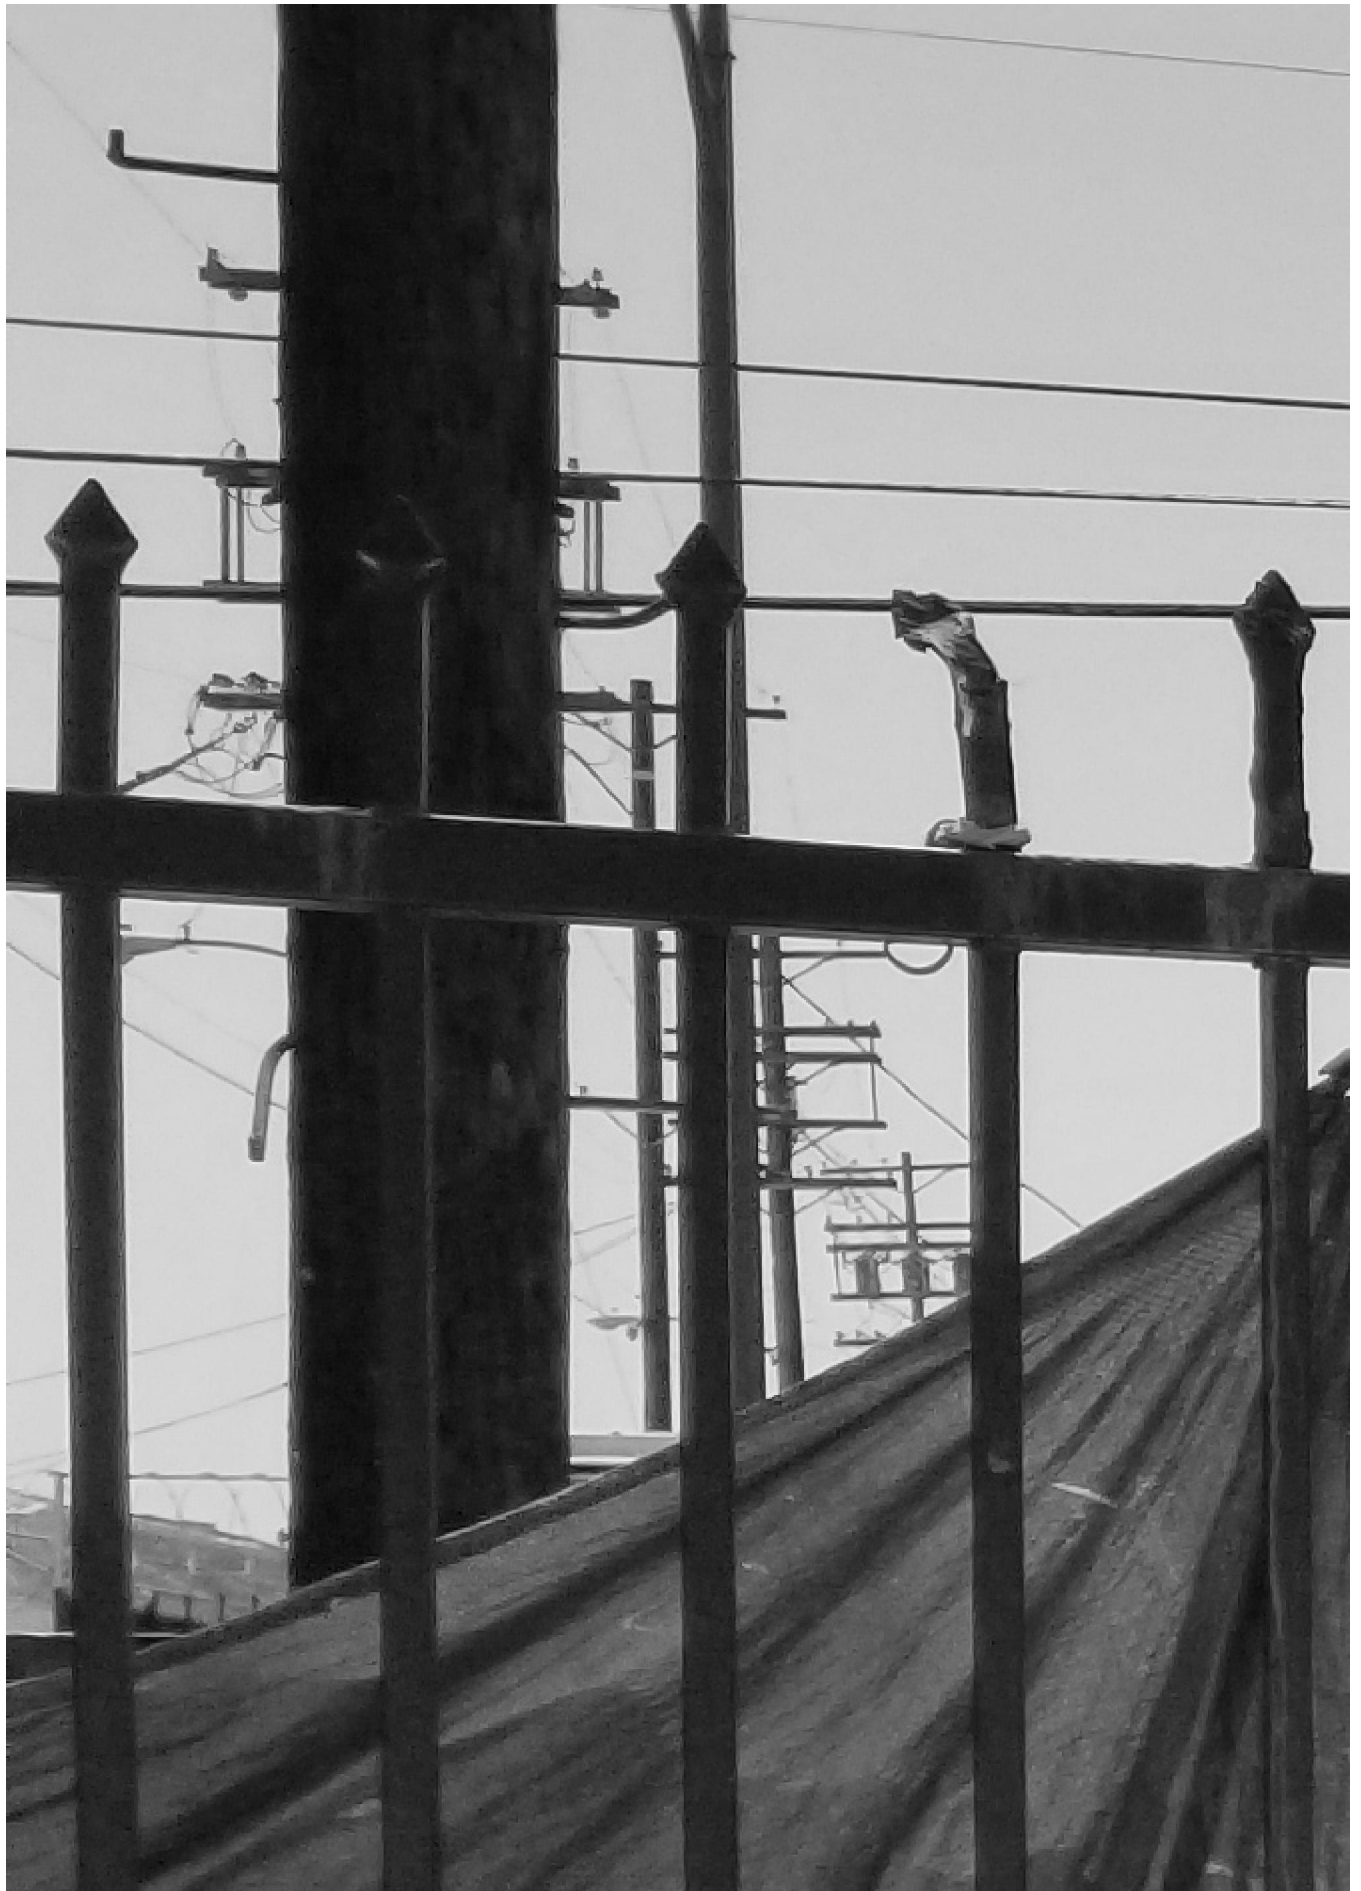

Sincerely,

Simon Kim
Property Manager

Hello, your name is referred by Estela Lopez of CCEA. I would like to bring out a few issues to get help from your office.

For past several months, we saw a bunch of illegal camps occupying the block in the 7th street between Gladys Ave and Ceres Ave. Before, I didn't have this much problem near this building. Right now, there are seven business entities in this building and here I list the problems and complaints due to the homeless camps.

1. **Health and sanitation Issue:** We find human wastes were tossed into the fence and left along side the tents. Also, tenants found rats coming into building and live around them, and I called the pest control company. This 7th street need to be cleaned like other streets regularly.
2. **Theft Issue :** They stole the chain-link fences from side street and used as supporting wall of canopy tent.
3. **Hazard of Fire Issue:** They use cooking devices next to the wall and nearby, and it is very danger for fire. Also, I noticed the burn marks on the wall.
4. **Illegal Electric Usage Issue:** I found they use electricity connected from the street pole with opened cords.
5. **Loosing business issue:** Visiting customers are afraid of coming to the businesses due the blocking street traffics and odors.
6. **Loosing tenants issue:** Current tenants do not want to renew or extend the lease due the situations we have. If we loose the tenants and business, how we could afford or handle the property taxes and business taxes.

Definitely, we need do something about this and I politely ask your help and support about these issues.

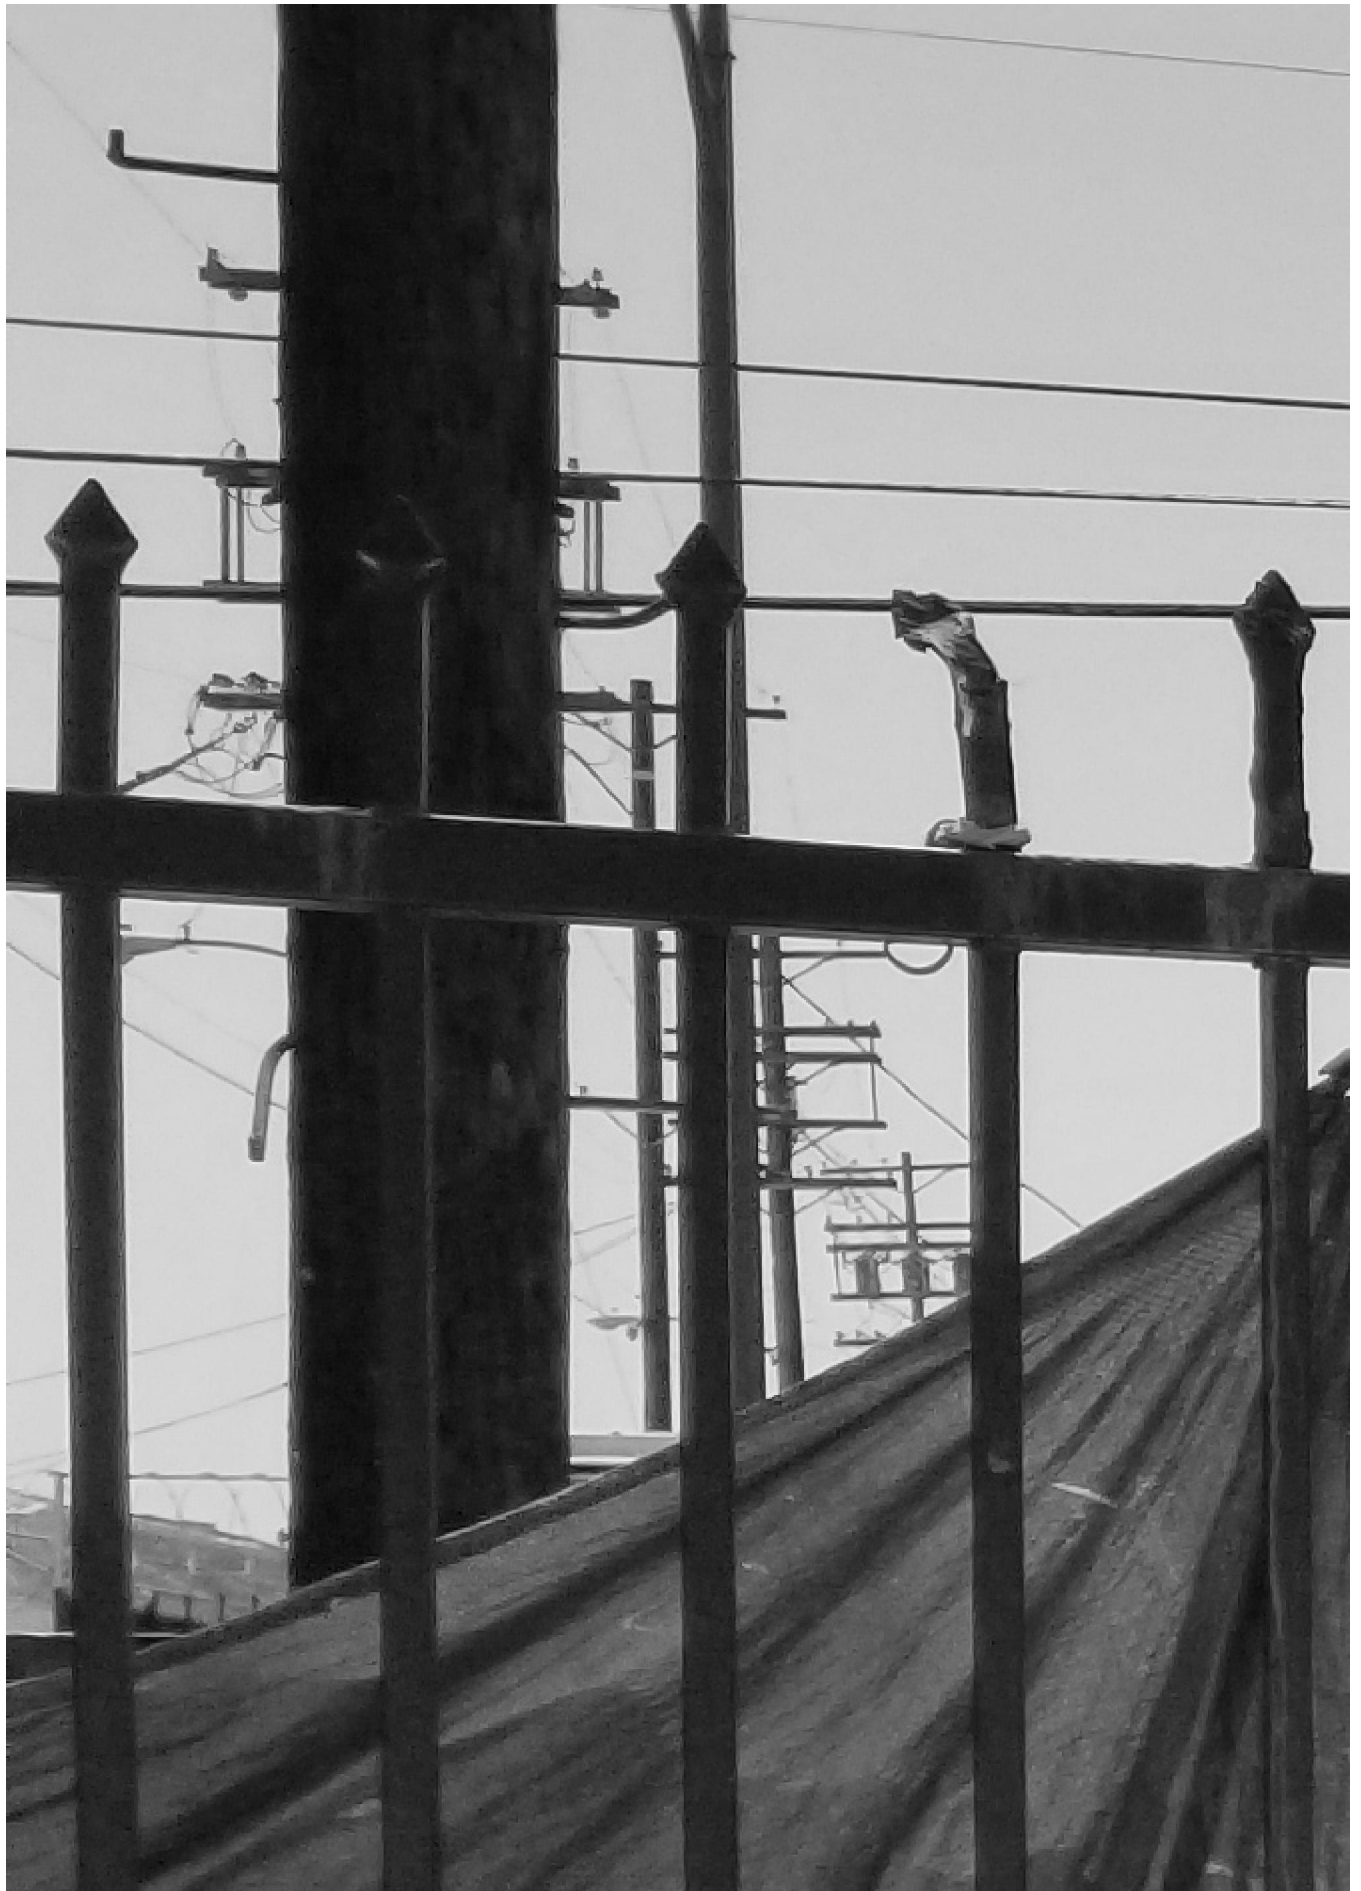

Sincerely,

Simon Kim

Subject: Chief Scott's Intro to Important Community Members/Neighbor Watch Groups/Area businesses, etc.

Greetings Everyone,

This week, Chief Scott will be crafting a letter introducing herself to community members/businesses/Neighborhood Watch Groups, and different organizations. With that said, she is requesting a list of all important community members/groups/businesses, etc. from each Area.

For your reference, I have attached the current stakeholders list, which was compiled for Chief Moore's swearing-in. Please review the list; If there are any additional names that need to be added to list, please add them under the tab "Additional Contacts" on the attached EXCEL Chart. Please provide this information by:

Due Date: Wednesday, July 25, 2018, by noon. I apologize in advance for the short notice. Please let me know if you have any questions.

Cheryl

Hello!

I will be out of the office at a conference next week, July 16-20. I will have limited access to email and calls.

If this matter is a maintenance or safety issue please call our 24 hour response line at 213-741-2661 for assistance.

Thank you!
Rena Leddy
LA Fashion District
Executive Director

Good evening Asst. Chief Arcos,

I read in the paper about your promotion and wanted to send my congratulations. I am not surprised that Chief Moore chose you for this important role. I know that Howard Klein reached out to you about a lunch or dinner, where we can officially celebrate your promotion. Please let us know what works best for you.

Best regards,

Larry

Hi Asst. Chief Arcos,
Congratulations on your new position. I know Estela reached out to you about getting on your calendar for a celebratory lunch. If dinner works better that's fine. Looking forward to getting together.
Best,
Howard

Subject: 9/22 Team Clean Up - Planning Meeting

Hi all. We are moving forward with our DTLA wide Team Up to Clean Up!

date: 9/22

Breakfast/Greeting from Councilmember from 8 - 930.

Clean up from 930/10 to 1pm.

Our initial planning meeting will be this Friday. I am requesting a little homework on your behalf before our meeting for those of you that represent residential areas. Because of the legal and safety concerns surrounding homeless encampments, we need to review what we want to do per neighborhood.

- Which blocks in your respective areas can we target?
- What tasks can we accomplish?
- BIDS - can we have access to some of your resources to add in that special day. Staffing up to join the effort?
- DEPTS - what resources can we tap into as well.

We hope to really engage some high profile media hosts alongside the Councilmember. We are looking to create a strong message that DTLA is welcoming, our residents, businesses, etc. care about our home and are out there cleaning up.

Please confirm you can make it to the meeting. This Friday at 11am, City Hall. Calendar invite on its way. I look forward to seeing you all then.

Best,

Joella Hopkins

Lt. Green,

Please see below email from Captain Reina and deploy appropriate resources to handle Newton encampment.

Please contact me with any questions or concerns, thank you.

Respectfully,

Sergeant Celina Robles
Los Angeles Police Department
Commander's Aide (Acting)
Operations-Central Bureau

Yasir,

I See it on SGT Vandersal's email. The organizers must have been in contact with Special Events. Are we having any issues with the event? There should be approx 200 participants according to the attached email.

Orlando Chandler, Captain
Commanding Officer
Central Patrol Division

Good afternoon Stacy,

Progressive Horizon Inc. dba West Coast Collective operating at 837 S. Los Angeles does have an application pending with DCR; DCR received additional information from the Office of Finance last week and based on that information this location will likely receive temporary approval.

Did the Captain or SLO have any concerns beyond the status of their application/temporary approval?

Ok. We need an update as to the status of the permits and clarification as to how long we have to wait before taking enforcement action, particularly if their permits are hung up due to lack of cooperation on their part.

On May 30, 2018, at 1:39 PM, Joseph Fleming <34772@lapd.online> wrote:

I was told if they have an application pending then we should leave them alone. According to the LADCR website, [837 S. Los Angeles](#) submitted a retailer application on March 3, 2018 and it is awaiting owner submittals. There are also several other applications submitted March 4, 2018 that appear to be pending as well.

I CC'ed the Cannabis Support Unit on this email as well but that was the guidance we had received previously.

Hello Captain!

I want to share with you the thread below. It seems to me that the location at 837 S. Los Angeles is operating illegally based on Kurt Knecht's email, but Narcotics and Jamilah have a different opinion.

Let me know how to proceed.

Thank you!

Rena

Hello Rena,

I received information back from out one of our Narcotic Detectives. He advised that they unit looked into the MJ dispensary located at [837 S. Los Angeles](#). The business has submitted paperwork to operate. Until they get rejected, they are essentially operating within the legal requirements per the Department of Cannabis Regulations. I believe you mentioned that Kurt Knecht was looking into it further. I will reach out to him for further.

Hello Rena,

I received information back from out one of our Narcotic Detectives. He advised that they unit looked into the MJ dispensary located at 837 S. Los Angeles. The business has submitted paperwork to operate. Until they get rejected, they are essentially operating within the legal requirements per the Department of Cannabis Regulations. I believe you mentioned that Kurt Knecht was looking into it further. I will reach out to him for further.

Subject: Re: Weed shop 837 S. Los Angeles

I was told if they have an application pending then we should leave them alone. According to the LADCR website, 837 S. Los Angeles submitted a retailer application on March 3, 2018 and it is awaiting owner submittals. There are also several other applications submitted March 4, 2018 that appear to be pending as well.

I CC'ed the Cannabis Support Unit on this email as well but that was the guidance we had received previously.

Hello Captain!

I want to share with you the thread below. It seems to me that the location at 837 S. Los Angeles is operating illegally based on Kurt Knecht's email, but Narcotics and Jamilah have a different opinion.

Let me know how to proceed.
Thank you!
Rena

Subject: Planning a DTLA Community Clean Up - Sept. 2018

Hi all. Hope this message finds you well. Happy Memorial Day weekend!

I'm starting to prep and would significantly love your help in planning a DTLA Community Clean Up late Sept. 2018 (thinking the 15th or 22nd). Would love to have your opinions and thoughts.

The initial plan is a Saturday am - 8am - 1pm. We select three locations in DTLA, receive basic safety training, head out to clean up and come back to a single location for a quick thank you and pizza party.

Obviously, there are a lot of concerns to navigate but please let me know if you are interested and if so, please mark your calendar for June 22 at 11AM meeting.

Looking forward to hearing back from you.

Best,

Joella Hopkins

Dear Fashion District Board and Stakeholders,

We are happy to announce the hiring of Anthony Rodriguez as the LA Fashion District's Director of Operations. Anthony is highly regarded in the security, law enforcement and property management world. He is currently the Director of Security for

Allied Universal Security Services at One California Plaza. Some key highlights of his background include:

- 10 years of downtown Los Angeles experience
- Displays excellent leadership skills
- Currently, in addition to managing the One Cal Building, he also manages the outdoor space at California Plaza with up to 300,000+ people in attendance at its outdoor concerts
- Has worked with the FBI, State Department, LAPD Major Crimes Division, and Homeland Security
- Facilitated training for LAPD metro units such as Hazmat, K-9, Bomb Squad and Special Operations Command Tier 1 units of the US Navy and US Army
- Certified Instructor of managing aggressive behavior
- Instructor in the following:
 - First Aid & CPR
 - Baton Defense Tactics
 - OC Spray (i.e. pepper spray)
 - Defensive Tactics
 - Handcuffing
 - Mitigation of targeted violence
 - Bomb threat and suspicious activity detection

He will be meeting with each of you once he comes on board. His start date is June 18th. In the meantime, Jackie Sanchez and Elmer Pacheco will manage the day-to-day operations of the clean and safe programs. You can reach them at the field office (213) 741-2661 and of course feel free to call me!

Regards,
Rena

Q2 2018 Issue

In This Issue: **New Light Rail to Serve Downtown's Eastside**

District Aflame

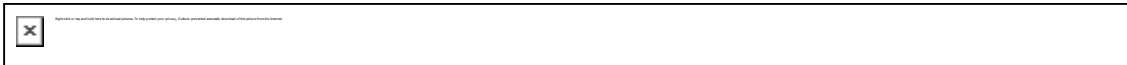

District Service Stats January – March 2018

New Light Rail to Serve Downtown's Eastside

The new 20-mile light rail transit line will originate in Artesia in southeast Los Angeles County along surface right-of-way into downtown. The project is expected to provide a direct connection to the Metro Green Line and the L A County regional transit network. Per the Measure M Expenditure Plan, the line could break ground in 2022.

[Read More](#)

District Aflame

In order to heighten awareness and improve response to quell hazards posed by sidewalk encampment fires in the district, Executive Director Estela Lopez invited representatives of the Los Angeles Fire Department (LAFD) to walk the district to see the situation first-hand and meet the affected business owners.

[Read More](#)

District Service Stats

January – March 2018

For the first three months of 2018, the District continued to experience rising trash, with a total of 421 tons collected, 11% higher than first Quarter 2017, with each month of 2018 higher than that month last year. As well, more graffiti was removed to-date in 2018 with 245 overall actions, up from 225 first quarter a year ago. Pressure wash requests have soared this year with 840 washings compared to 262 during first quarter 2017. The BID provides pressure washing services to address public health hazards from bodily fluids and waste on sidewalks and in business doorways.

Good morning Sgt Acosta,

I am sorry I was not in when you called. I was in another meeting off site.

I went to a meeting last night at the Beacon Loft on 4th and Alameda and met with Sr Lead Adrian Lopez who was speaking there to the homeowners. I was happy first to see him again since I have not been able to since our annual lunch we do for the wonderful men and women in Blue for Christmas. I believe you were here last Christmas correct?

Anyway. Yes, I would love to meet you and anyone that has the time. I have always been completely as well as the owners of this building, on the side of the LAPD. It is amazing what LAPD must deal with on a daily basis and still willing to get up everyday and leave your homes and dress for battle. It is always the unknown. Be it violent or just have to see the destruction and destitution surrounding us. I have been here for 31 years and cannot believe how our great city looks like an impoverished country, not California. We know everything start the downhill spiral when the prisoners were let out of prison and no where to go but the streets. Then when our the powers that be tied everyone hands behind their back, the one's that would bring any type of safety to the people, when they changed the laws from felonies to misdemeanors. This was the straw that broke the camels back. It is hard to believe that Californians have no clue obviously what brought our downhill and are not doing anything to change it.

I know I am preaching to the choir, but I just want you to know, I understand that LAPD has issues. But for goodness sake, what are we suppose to do when you have the homeless attacking the security guards??

When are you available?

Feel free tio contact me at your convenience.

All the best

Subject: Re: WORSE ON 6TH STREET

Dear Captain Reina,

It will be great to see you on Wednesday. I enjoy these moments of recognition to our wonderful men and women in blue. I hope you and your team know that we are on your side and realize we understand that a lot of the times your hands are tied.

But I must let you that we had another incident on Saturday at 11:00 am where our security guard was attacked by a "Homeless" person that pepper sprayed him in the eyes on 6th Street (a police report was filed).

I also found out on Friday night as I was leaving (10:00 pm) the office, 2 of my security guards (1 of which was accosted and fought with a "Cuban" homeless man previous and who tried to stab him with a long knife)

keeps coming back in the evening looking for him and willing and choosing to fight any security guard on duty.

What can be done to help make these block safer gentlemen. We are at our wits end.

Deon, you stated you would check it out. What have you "found out"?

There was a fire at the homeless encampment across from our Maple entrance of 625 S. Maple today. The homeless started fighting, then all of a sudden a fire broke out. The encampment has always been interesting as there will be nice cars pull up and women and men alike will get out of the cars and go into 1 or more of the tents at night sometimes stay for a while, others come out quickly. This was observed by 1 of the men that parked his motor home at our 625 S. Maple loading area and would stay the night while working on 1 of our county projects.

I know hands are tied and hands bodies are busy, but this part of the city is getting so unsafe. You know that I have been contacting you since you took over and Sgt Flanagan and SLO Joseph and all the other SLO's before him and certainly Fashion District who is called several times a day knows how much trouble we have here for the last 30 years.

What can possible be done?

All the best

Gentlemen,

Just reaching out. It is still pretty horrible and worse since I do not have cameras yet back on 6th street and we are still displaced because of the fire last August, 2017.

Still no patrols from LAPD. We have asked help, but my tenants say it is worse than ever before.

Captain, I know you are very busy and I am just reaching out again. Any help to stop the drugs and buying and selling of stolen merchandise along with EBT cards would be helpful.

Thank you for whatever can be done.

Subject: WORSE ON 6TH STREET

Gentlemen,

Just reaching out. It is still pretty horrible and worse since I do not have cameras yet back on 6th street and we are still displaced because of the fire last August, 2017. Still no patrols from LAPD. We have asked help, but my tenants say it is worse than ever before.

Captain, I know you are very busy and I am just reaching out again. Any help to stop the drugs and buying and selling of stolen merchandise along with EBT cards would be helpful.

Thank you for whatever can be done.

Kathleen Damani

Carolyn, I'm thrilled to connect you with Captain Marc Reina, who as the commanding officer of Central Area will soon have jurisdiction south of 7th St. after Central expands into Newton's territory. Capt. Reina appreciates your help with this event and will reach out to you about specifics.

I'll let you both take it from here. Please let me know if there's anything the BID can do to help either of you make this go as smoothly as possible.

Good morning Sgt Acosta,

I am sorry I was not in when you called. I was in another meeting off site.

I went to a meeting last night at the Beacon Loft on 4th and Alameda and met with Sr Lead Adrian Lopez who was speaking there to the homeowners. I was happy first to see him again since I have not been able to since our annual lunch we do for the wonderful men and women in Blue for Christmas. I believe you were here last Christmas correct?

Anyway. Yes, I would love to meet you and anyone that has the time. I have always been completely as well as the owners of this building, on the side of the LAPD. It is amazing what LAPD must deal with on a daily basis and still willing to get up everyday and leave your homes and dress for battle. It is always the unknown. Be it violent or just have to see the destruction and destitution surrounding us. I have been here for 31 years and cannot believe how our great city looks like an impoverished country, not California. We know everything start the downhill spiral when the prisoners were let out of prison and no where to go but the streets. Then when our the powers that be tied everyone hands behind their back, the one's that would bring any type of safety to the people, when they changed the laws from felonies to misdemeanors. This was the straw that broke the camels back. It is hard to believe that Californians have no clue obviously what brought our downhill and are not doing anything to change it.

I know I am preaching to the choir, but I just want you to know, I understand that LAPD has issues. But for goodness sake, what are we suppose to do when you have the homeless attacking the security guards??

When are you available?

Feel free tio contact me at your convenience.

All the best

Subject: Re: WORSE ON 6TH STREET

Dear Captain Reina,

It will be great to see you on Wednesday. I enjoy these moments of recognition to our wonderful men and women in blue. I hope you and your team know that we are on your side and realize we understand that a lot of the times your hands are tied.

But I must let you that we had another incident on Saturday at 11:00 am where our security guard was attacked by a "Homeless" person that pepper sprayed him in the eyes on 6th Street (a police report was filed).

I also found out on Friday night as I was leaving (10:00 pm) the office, 2 of my security guards (1 of which was accosted and fought with a "Cuban" homeless man previous and who tried to stab him with a long knife)

keeps coming back in the evening looking for him and willing and choosing to fight any security guard on duty.

What can be done to help make these block safer gentlemen. We are at our wits end.

Deon, you stated you would check it out. What have you "found out"?

There was a fire at the homeless encampment across from our Maple entrance of 625 S. Maple today. The homeless started fighting, then all of a sudden a fire broke out. The encampment has always been interesting

as there will be nice cars pull up and women and men alike will get out of the cars and go into 1 or more of the tents at night sometimes stay for a while, others come out quickly. This was observed by 1 of the men that

parked his motor home at our 625 S. Maple loading area and would stay the night while working on 1 of our county projects.

I know hands are tied and hands bodies are busy, but this part of the city is getting so unsafe. You know that I have been contacting you since you took over and Sgt Flanagan and SLO Joseph and all the other SLO's before

him and certainly Fashion District who is called several times a day knows how much trouble we have here for the last 30 years.

What can possible be done?

All the best

On Apr 19, 2018, at 7:41 PM, Estela Lopez <elopez@centralcityeast.org> wrote:

I met today with the leadership of the So. California Gardeners Federation at 333 S. San Pedro. This is a 70 year-old organization that formed to help Japanese American gardeners who were the backbone of the industry in the years after WWII. Their membership once numbered around 7,000; it's now about 700. All are in their 70's, 80's and 90's. The Federation helps them with a variety of issues including medical, insurance, etc. The members are not adept at doing things online, so they come in person to pay their dues and meet with staff. Many are disabled and frail. They park across the street and must walk through a small gauntlet of encampments to reach the Federation offices. If the encampments occupy the entire sidewalk, pedestrians are forced to walk around parked cars and into traffic. The Federation staff is frightened for themselves and their members.

I was touched by their situation and promised I would do whatever I could to address their concerns. Some of my initial thoughts:

- CD 14: could we designate handicapped parking spaces in the two metered spaces directly in front of their building? Could we look at a crosswalk mid-block between 3rd and 4th?
- City Attorney: is there anything in the LAMC that can help make a sidewalk safer for disabled/handicapped around a location that serves their needs?
- LAPD: To the extent possible, could you help us ensure ADA clearance around this building? Our BID security is making every effort here, as well.

I don't normally send out an email like this, particularly because I know how very hard you are all working to help us and the limitations we all have. I hope you understand that this one situation broke my heart, and I'm sending out this extraordinary "Hail Mary" to you all.

The Federation would be delighted to host a meeting at their office.

Subject: Re: Need your advice, help

Hi Estela,

Thank you for bringing this to our attention. I wanted to let you know that I'm working on this. It will likely be a multi-dimensional response including outreach and education regarding blocking the sidewalk, sanitation cleanup for any bulky items, and enforcement.. As you probably are aware, the key law enforcement tool is LAMC 41.18(a)--blocking the sidewalk though 56.11 may be involved as well. I will meet with RESET to discuss the sidewalk clearance necessary for ADA compliance so the elderly and disabled can utilize the sidewalk in this area. If voluntary compliance isn't possible, I will handle any associated misdemeanor cases which arise from the area.

Kurt

I met today with the leadership of the So. California Gardeners Federation at 333 S. San Pedro. This is a 70 year-old organization that formed to help Japanese American gardeners who were the backbone of the industry in the years after WWII. Their membership once numbered around 7,000; it's now about 700. All are in their 70's, 80's and 90's. The Federation helps them with a variety of issues including medical, insurance, etc. The members are not adept at doing things online, so they come in person to pay their dues and meet with staff. Many are disabled and frail. They park across the street and must walk through a small gauntlet of encampments to reach the Federation offices. If the encampments occupy the entire sidewalk, pedestrians are forced to walk around parked cars and into traffic. The Federation staff is frightened for themselves and their members.

I was touched by their situation and promised I would do whatever I could to address their concerns. Some of my initial thoughts:

- CD 14: could we designate handicapped parking spaces in the two metered spaces directly in front of their building? Could we look at a crosswalk mid-block between 3rd and 4th?
- City Attorney: is there anything in the LAMC that can help make a sidewalk safer for disabled/handicapped around a location that serves their needs?
- LAPD: To the extent possible, could you help us ensure ADA clearance around this building? Our BID security is making every effort here, as well.

I don't normally send out an email like this, particularly because I know how very hard you are all working to help us and the limitations we all have. I hope you understand that this one situation broke my heart, and I'm sending out this extraordinary "Hail Mary" to you all.

The Federation would be delighted to host a meeting at their office.

Hi Estela,

I will submit a request to DOT to see if we can have two meters removed and have designated handicap spaces. I will have to speak to Nate regarding a mid-block crosswalk. I know that there are existing plans for improvements on San Pedro.

Hello Ma'am. Hope all is well. I was in front of your building on Saturday. I also saw a Fashion District BID officer there as well. There was nothing occurring when I pulled up. I was there for a while and it was pretty quiet. I met with the C3 team a week prior. They have been having issues with people loitering in front of their door and on the sidewalk. Their complaint was that they didn't want the people standing on the sidewalk where they worked because it was disruptive. I had to advise that people have the right to stand on the sidewalk, talk, yell and socialize, and unless they are engaged in some illegal activity, playing loud music, or blocking the sidewalk, I was limited in what I could do, even if they are vending, which has been decriminalized by the city. All we can do is issue warning citations if we observe the activity. I tried to observe the activity but, there was nothing enforceable at the time with the exception of a transient who got up and left when I came. I will continue to monitor.

Was the suspect who sprayed your employee arrested? If not and a report was taken, please give me the name of your employee so I can find the report(S). Maybe we can meet when you have a moment.

Take care.

Dear Captain Reina,

It will be great to see you on Wednesday. I enjoy these moments of recognition to our wonderful men and women in blue. I hope you and your team know that we are on your side and realize we understand that a lot of the times your hands are tied.

But I must let you that we had another incident on Saturday at 11:00 am where our security guard was attacked by a "Homeless" person that pepper sprayed him in the eyes on 6th Street (a police report was filed). I also found out on Friday night as I was leaving (10:00 pm) the office, 2 of my security guards (1 of which was accosted and fought with a "Cuban" homeless man previous and who tried to stab him with a long knife) keeps coming back in the evening looking for him and willing and choosing to fight any security guard on duty.

What can be done to help make these block safer gentlemen. We are at our wits end.

Deon, you stated you would check it out. What have you "found out"?

There was a fire at the homeless encampment across from our Maple entrance of 625 S. Maple today. The homeless started fighting, then all of a sudden a fire broke out. The encampment has always been interesting as there will be nice cars pull up and women and men alike will get out of the cars and go into 1 or more of the tents at night sometimes stay for a while, others come out quickly. This was observed by 1 of the men that

parked his motor home at our 625 S. Maple loading area and would stay the night while working on 1 of our county projects.

I know hands are tied and hands bodies are busy, but this part of the city is getting so unsafe. You know that I have been contacting you since you took over and Sgt Flanagan and SLO Joseph and all the other SLO's before him and certainly Fashion District who is called several times a day knows how much trouble we have here for the last 30 years.

What can possible be done?

All the best

Hello,

Can we please have this side of our block removed of these encampments? The pictures were taken by one of our employees because he couldn't access the sidewalk.

It's a big issue for us when our employees feel unsafe and can't use the sidewalk to get to work.

It's also just a health and sanitation issue all around. When we have the camps here, our block becomes exponentially dirty with trash, feces, urine, needles, rats, cockroaches, etc.

Moreover, we are trying to lease a part of our building because the business has been so bad (and these encampments have a huge part of this). When potential tenants drive by, they get scared and don't even want to look at our place when we have these camps in front.

Please please help us!

Subject: 550 Crocker Street: Please help!
Attachments: IMG-1399.JPG; IMG-1401.JPEG

Hello,

Can we please have this side of our block removed of these encampments? The pictures were taken by one of our employees because he couldn't access the sidewalk.

It's a big issue for us when our employees feel unsafe and can't use the sidewalk to get to work.

It's also just a health and sanitation issue all around. When we have the camps here, our block becomes exponentially dirty with trash, feces, urine, needles, rats, cockroaches, etc.

Moreover, we are trying to lease a part of our building because the business has been so bad (and these encampments have a huge part of this). When potential tenants drive by, they get scared and don't even want to look at our place when we have these camps in front.

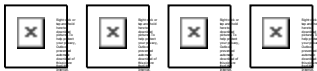

Please please help us!

--

Rose

Subject: Re: WORSE ON 6TH STREET

We appreciate it so much. I am blind without my cameras. But everytime I leave the office and do a tour of the block, I get sick. It has gone to heck in a handbasket on Maple and 6th! So much destruction and trash and filth all around.

Its really ridiculous. And all along 6th Street all the bad guys have set up housekeeping against our building for hours at a time. Buying and Selling from what the tenants tell us.

Any help is appreciated.

Have a better day everyone.

Kathleen

Gentlemen,

Just reaching out. It is still pretty horrible and worse since I do not have cameras yet back on 6th street and we are still displaced because of the fire last August, 2017.

Still no patrols from LAPD. We have asked help, but my tenants say it is worse than ever before.

Captain, I know you are very busy and I am just reaching out again. Any help to stop the drugs and buying and selling of stolen merchandise along with EBT cards would be helpful.

Thank you for whatever can be done.

Subject: FW: Homeless encampment

Hello Captain,

Please see attached photo. This encampment on the south side of 7th Street is taking over the entire sidewalk. It is tied up to private and public property and impeding a bus stop.

On 7th street between Maple and San Pedro, our teams picked up ½ **ton of trash** this week alone.

Isn't there some way to enforce that tents come down at 6 a.m.? My understanding is that this is not part of the "injunction area".

Thanks!
Rena

Tampa,

Please see the attached picture.

The homeless encampment located at 314 E 7th st, started off with one tent only but now the sidewalk is completely blocked with the homeless encampments. We spoke to Officer Linton and she said there wasn't anything that can be done. I will continue to report this safety hazard to the city sanitation.

Good morning, Estela,

I, too, want to thank Captain Reina for connecting us.

Indeed, our paths have crossed over the years but it has now been some time since we worked together. I look forward to speaking with you regarding CCEA's generous offer to fund additional surveillance cameras.

I am available for a phone call either tomorrow – Tuesday, April 10th – at 1:00 p.m. or Thursday, April 12th at 4:00 p.m. Please let me know if either date and time works for you.

Best,

Cecilia

Thank you for the e-intro to Cecilia, Captain.

Hi Cecilia. I know our paths have crossed over the years, and it will be good to reconnect. If you're available, I could do a phone call this week on Tuesday at 11:30am or 1pm, Thursday late afternoon or on Friday. Looking forward to speaking with you.

Good morning Estela,

I would like to introduce you to Cecilia Glassman, LA Police Foundation, who is copied on this email. I spoke with Cecilia regarding the CCEA's offer to provide funding for additional cameras in your district. She is ready to work with you and the vendor.

Thank you for your support and for offering the assistance to make this camera project even more successful.

Captain

We hit the area at 0600 and walk from Maple to San Pedro Streets provided education and warnings. A lot of the tents were unoccupied. Officers made three warrant arrests. The attached picture doesn't seem to do justice for the work the officer's did this morning but it does show that some tents were taken down and in at least two cases tents and property is completely gone. We will be out there again each morning and give the area a little extra attention before moving on to the other locations

Hello Captain,

Please see attached photo. This encampment on the south side of 7th Street is taking over the entire sidewalk. It is tied up to private and public property and impeding a bus stop.

On 7th street between Maple and San Pedro, our teams picked up ½ **ton of trash** this week alone.

Isn't there some way to enforce that tents come down at 6 a.m.? My understanding is that this is not part of the "injunction area".

Thanks!
Rena

Tampa,

Please see the attached picture.

The homeless encampment located at 314 E 7th st, started off with one tent only but now the sidewalk is completely blocked with the homeless encampments. We spoke to Officer Linton and she said there wasn't anything that can be done. I will continue to report this safety hazard to the city sanitation.

Subject: RE: Visit with Cold Storage Company

Hi Evelyn,

April 23 works well for me. My conversations with Chief Arcos indicated that we would take a tour and then have lunch. Is that still the plan? If so, please let me know if anyone else would also be coming. Assuming we are having lunch, I will make a reservation.

Thank you for coordinating this.

Regards,

Larry

Good afternoon Mr. Rauch,
I would like to coordinate a meeting for Chief Arcos and Capt. Reina to visit with you.
Please email me if any of the following dates will work for you.
April 23, Monday at 11:30 am to 12:30 pm
April 30, Monday at 11:30 am to 12:30 pm

Thank you.

Evelyn Edwards, Secretary
LAPD- Central Area

Chief Arcos,

I wanted to thank you for the visit on Tuesday. The meeting with you, Sergeant Lara and Officer Gonzalez was productive and educational for us. After you left, we showed them around the rest of the facilities and then had a very nice lunch. It gave us an opportunity to work out a potential plan for training our staff to be prepared for an active shooter. They were very knowledgeable and passionate about the benefits of educating our employees. Your participation was an important component in the success of the visit and is most appreciated.

You had mentioned the possibility of returning with Captain Rena and I would like to extend the invitation when your schedules permit. We would welcome the opportunity to have you both (and others if interested) visit and if possible share a lunch. As I mentioned, Captain Rena has been a wonderful leader in the Central Division and we would enjoy hosting whoever wanted to attend.

Please let me know if this could work into your schedule.

Thanks again for your attention to this important issue for us.

You had mentioned the possibility of returning with Captain Rena and I would like to extend the invitation when your schedules permit. We would welcome the opportunity to have you both (and others if interested) visit and if possible share a lunch. As I mentioned, Captain Rena has been a wonderful leader in the Central Division and we would enjoy hosting whoever wanted to attend.

Please let me know if this could work into your schedule.

Thanks again for your attention to this important issue for us.

Best regards,

Larry

Subject: Thank You

Chief Arcos,

I wanted to thank you for the visit on Tuesday. The meeting with you, Sergeant Lara and Officer Gonzalez was productive and educational for us. After you left, we showed them around the rest of the facilities and then had a very nice lunch. It gave us an opportunity to work out a potential plan for training our staff to be prepared for an active shooter. They were very knowledgeable and passionate about the benefits of educating our employees. Your participation was an important component in the success of the visit and is most appreciated.

THURSDAY | MAY 17, 2018
JW MARRIOTT LA LIVE | 11 AM - 1:30 PM

CCA'S 24TH ANNUAL TREASURES of LOS ANGELES

PRESENTED BY **Brookfield**

Treasures of Los Angeles is CCA's signature event, celebrating the diversity, strength and excellence of Los Angeles. More than 1,200 of our city's top business, elected and civic leaders come together to honor those who have made exceptional contributions to our city. This year, our honorees represent the best of Los Angeles. They are dedicated to enhancing the vibrancy of the city, keeping our communities safe and inspiring Angelenos to dream big. Thank you to our sponsors for supporting Treasures!

Hello Officers,

Can you send someone from your team to move the homeless guys in front?

They have been hanging their belongings and trash bags on our gates, and they have damaged the razor wires. So, we have to repair them tomorrow asap.

We are going to be gone for a tradeshow starting this Friday, 03/09 and coming back next Thursday 3/15 or Friday 3/16. We have to repair them before we go.

We would appreciate your help or any of your team's help.

Thank you!

Subject: TENT NEAR OUR PROPERTY

Dear Officers,

Please remove the tent that has been set up near 541 S. Crocker
between our property and Volunteers of America for the past week.
We are having major issues with defecating at the site walk by our
gate throughout the day and obstruction of the view of the street by
our gate for our food truck customers who need to drive in and out of
the facility at all hours of the day. We have received numerous
complaints from our customers on this and can not afford having any
of our upset customers terminate their services with us due to this
issue.

Please help us with this matter and have the tent removed from the
area immediately!

Thank you!

*Respectfully,
Mona Alemzadeh

Subject: TENT NEAR OUR PROPERTY

Dear Officers,

Please remove the tent that has been set up near 541 S. Crocker between our property and Volunteers of America for the past week. We are having major issues with defecating at the site walk by our gate throughout the day and obstruction of the view of the street by our gate for our food truck customers who need to drive in and out of the facility at all hours of the day. We have received numerous complaints from our customers on this and can not afford having any of our upset customers terminate their services with us due to this issue.

Please help us with this matter and have the tent removed from the area immediately!

Thank you!

*Respectfully,
Mona Alemzadeh

Mr. Rauch,

It was a pleasure speaking with you. I have calendared the walkthrough of your business (LA Cold Storage) with Chief Arcos and myself for Tuesday, March 27, 2018, at 12:00 noon. I will follow up with you prior to that date to confirm. Please feel free to contact me if something changes.

Respectfully,

Chief Arcos, as you recommended I am by this email putting you in direct contact with Larry Rauch of LA Cold Storage. Larry is one of our longest-serving BID Board members. His company is located at 4th and Central. It's a large, expansive plant with cargo truck activity through multiple loading docks/entrances. Larry is seeking information that would help his company be as prepared as possible in the event of an active shooter situation.

Larry is cc'd here. His office phone is 213-624-1831, ext. 221.

Larry, I am placing you in the best hands possible. Chief Arcos will take it from here.

Chief, please know how grateful I am for your help.

Chief Arcos, as you recommended I am by this email putting you in direct contact with Larry Rauch of LA Cold Storage. Larry is one of our longest-serving BID Board members. His company is located at 4th and Central. It's a large, expansive plant with cargo truck activity through multiple loading docks/entrances. Larry is seeking information that would help his company be as prepared as possible in the event of an active shooter situation.

Larry is cc'd here. His office phone is 213-624-1831, ext. 221.

Larry, I am placing you in the best hands possible. Chief Arcos will take it from here.

Chief, please know how grateful I am for your help.

To whom it may concern:

This is Rose again from 550 Crocker Street. We cannot have these tents in front of our building and gates. This is a hazard for all of us here. We cannot safely access our sidewalk. Our employees and customers have to walk on the street to get from one place to another. In addition, when we have these tents in front, we have excess trash, defecation, urination, rat, and roach issues. There are tarps and trash bags tied to our gates. Every day that goes by there is another tent that gets added. We gave up on our Towne side, and we can't even access our exit because it's completely blocked off. Please help us keep the Crocker side of our building under control!

Please please please help us!!

On Mon, Feb 12, 2018 at 9:20 AM, Rose Park <rose@lanystyle.com> wrote:

Dear City Officials and Officers of Los Angeles,

Can you send over a team to have these homeless tents removed? We need this sidewalk open, so we can have safe access between our two lots. In addition, our customers don't feel safe when they see this right in front of our building.

They are setting up mattresses and sofas right in front, and this is very unnecessary. There is a tarp tied to our gate right now, and this is not safe for any one.

We are seeing more and more tents set up as the day passes, so please help us before the situation becomes unmanageable.

Our company is at such an economically difficult time right now, and this situation makes everything much worse. Even as our taxes raise every year, we pay our taxes and dues to the city. However, the homeless encampments, safety, health hazard issues just get worse and worse. We can't figure out why we have no right or say in this. It's just unfortunate how we have to bear with all the consequences when we are doing our duty to be rightful citizens here.

We know you are all very busy, and it's a hard situation for everyone. We tried to approach these people directly, but it only gets worse as we are at direct danger when we do. Our neighbors were threatened with a knife pointed at them when they had approached one of these encampments. Therefore, we can only rely on your help.

We would truly appreciate your response and help as soon as possible.

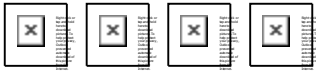

Thank you!

To whom it may concern:

This is Rose again from 550 Crocker Street. We cannot have these tents in front of our building and gates. This is a hazard for all of us here. We cannot safely access our sidewalk. Our employees and customers have to walk on the street to get from one place to another. In addition, when we have these tents in front, we have excess trash, defecation, urination, rat, and roach issues. There are tarps and trash bags tied to our gates. Every day that goes by there is another tent that gets added. We gave up on our Towne side, and we can't even access our exit because it's completely blocked off. Please help us keep the Crocker side of our building under control!

Please please please help us!!

Dear City Officials and Officers of Los Angeles,

Can you send over a team to have these homeless tents removed? We need this sidewalk open, so we can have safe access between our two lots. In addition, our customers don't feel safe when they see this right in front of our building.

They are setting up mattresses and sofas right in front, and this is very unnecessary. There is a tarp tied to our gate right now, and this is not safe for any one.

We are seeing more and more tents set up as the day passes, so please help us before the situation becomes unmanageable.

Our company is at such an economically difficult time right now, and this situation makes everything much worse. Even as our taxes raise every year, we pay our taxes and dues to the city. However, the homeless encampments, safety, health hazard issues just get worse and worse. We can't figure out why we have no right or say in this. It's just unfortunate how we have to bear with all the consequences when we are doing our duty to be rightful citizens here.

We know you are all very busy, and it's a hard situation for everyone. We tried to approach these people directly, but it only gets worse as we are at direct danger when we do. Our neighbors were threatened with a knife pointed at them when they had approached one of these encampments. Therefore, we can only rely on your help.

We would truly appreciate your response and help as soon as possible.

Thank you!

FOR IMMEDIATE RELEASE

February 26, 2018

**MAYOR GARCETTI ON STATE LEGISLATION THAT WOULD DELIVER \$1.5
BILLION TO ADDRESS HOMELESSNESS CRISIS**

“California’s homelessness crisis is a humanitarian emergency that shocks our conscience and compels all of us to act with urgency. Cities are first responders in this crisis, and we are leveraging every possible resource to get people off the street and into homes. But we need help. That is why I and the 10 other Mayors of California’s largest cities are calling on the State Legislature to put our surplus dollars where they are desperately needed. This bill would provide emergency bridge housing and services to help people with their most urgent needs, so that they can begin rebuilding their lives with the dignity that everyone deserves.” — **Mayor Eric Garcetti**

Today, Mayor Garcetti, Assemblymember Miguel Santiago (D-Los Angeles), Assemblymember Laura Friedman (D-Glendale), and others declared their strong support for Assembly Bill 3171, a \$1.5 billion state funding request to address California’s growing homelessness crisis.

The funding would be allocated to cities in proportion to their share of the homeless population, and require matching funds from local jurisdictions. The City of Los Angeles has approximately 25 percent of the state’s homeless population, according to the 2017 Point-In-Time Count. Using that metric, the City would see \$382 million from this measure, which could be matched 1-1, for a total of \$764 million in funding.

Dear City Officials and Officers of Los Angeles,

Can you send over a team to have these homeless tents removed? We need this sidewalk open, so we can have safe access between our two lots. In addition, our customers don't feel safe when they see this right in front of our building.

They are setting up mattresses and sofas right in front, and this is very unnecessary. There is a tarp tied to our gate right now, and this is not safe for any one.

We are seeing more and more tents set up as the day passes, so please help us before the situation becomes unmanageable.

Our company is at such an economically difficult time right now, and this situation makes everything much worse. Even as our taxes raise every year, we pay our taxes and dues to the city. However, the homeless encampments, safety, health hazard issues just get worse and worse. We can't figure out why we have no right or say in this. It's just unfortunate how we have to bear with all the consequences when we are doing our duty to be rightful citizens here.

We know you are all very busy, and it's a hard situation for everyone. We tried to approach these people directly, but it only gets worse as we are at direct danger when we do. Our neighbors were threatened with a knife pointed at them when they had approached one of these encampments. Therefore, we can only rely on your help.

We would truly appreciate your response and help as soon as possible.

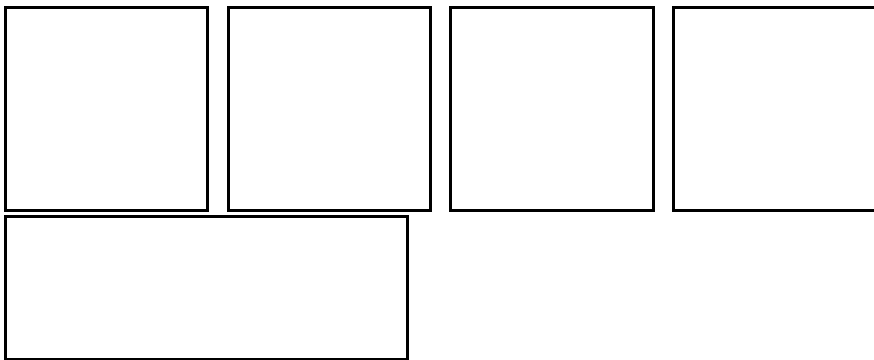

Thank you!

This is Rose again from 550 Crocker Street. We cannot have these tents in front of our building and gates. This is a hazard for all of us here. We cannot safely access our sidewalk. Our employees and customers have to walk on the street to get from one place to another. In addition, when we have these tents in front, we have excess trash, defecation, urination, rat, and roach issues. There are tarps and trash bags tied to our gates. Every day that goes by there is another tent that gets added. We gave up on our Towne side, and we can't even access our exit because it's completely blocked off. Please help us keep the Crocker side of our building under control!

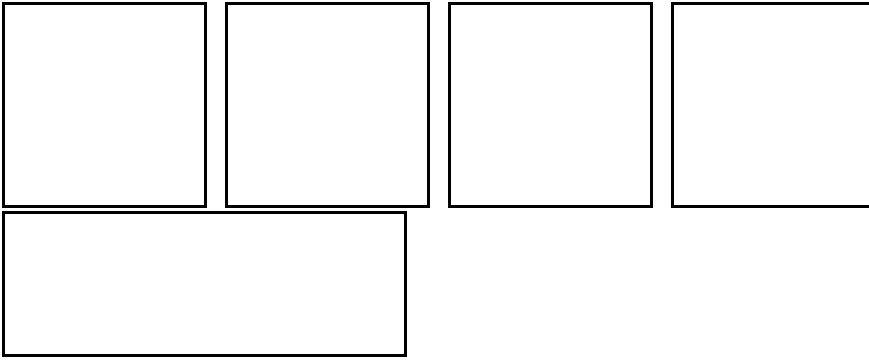

Please please please help us!!

They are setting up mattresses and sofas right in front, and this is very unnecessary. There is a tarp tied to our gate right now, and this is not safe for any one.

We are seeing more and more tents set up as the day passes, so please help us before the situation becomes unmanageable.

Our company is at such an economically difficult time right now, and this situation makes everything much worse. Even as our taxes raise every year, we pay our taxes and dues to the city. However, the homeless encampments, safety, health hazard issues just get worse and worse. We can't figure out why we have no right or say in this. It's just unfortunate how we have to bear with all the consequences when we are doing our duty to be rightful citizens here.

We know you are all very busy, and it's a hard situation for everyone. We tried to approach these people directly, but it only gets worse as we are at direct danger when we do. Our neighbors were threatened with a knife pointed at them when they had approached one of these encampments. Therefore, we can only rely on your help.

We would truly appreciate your response and help as soon as possible.

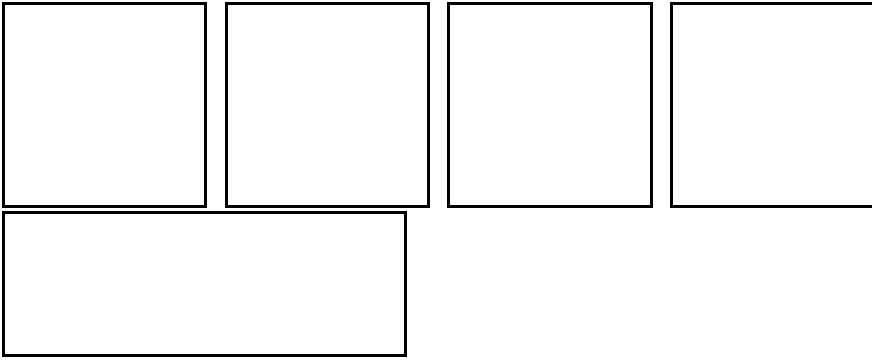

Thank you!

This is Rose again from 550 Crocker Street. We cannot have these tents in front of our building and gates. This is a hazard for all of us here. We cannot safely access our sidewalk. Our employees and customers have to walk on the street to get from one place to another. In addition, when we have these tents in front, we have excess trash, defecation, urination, rat, and roach issues. There are tarps and trash bags tied to our gates. Every day that goes by there is another tent that gets added. We gave up on our Towne side, and we can't even access our exit because it's completely blocked off. Please help us keep the Crocker side of our building under control!

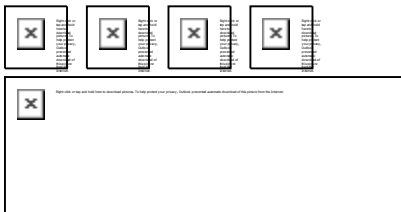

Please please please help us!!

Good Afternoon. I hope this message finds you well.

I am reaching out to have you join our 101-110-10 Encampment Coalition/Task Force. We want to bring all of you amazing folks to the table and create a strategy to engage in mid-to-late Spring in addressing the homeless encampments along our freeways surrounding DTLA. We will be taking a holistic approach - Services, Clean Up, Housing, Storage, and addressing the underpasses/areas for lighting/park needs for our future needs.

We would like to have our first meeting March 14, 2018 at 1030AM here in City Hall, 4th Floor Media Room.

Please confirm your willingness to sit on the Task Force and attendance at our first meeting. I look forward to hearing from you and have your strategic help!

Best,

Good Afternoon. I hope this message finds you well.

I am reaching out to have you join our 101-110-10 Encampment Coalition/Task Force. We want to bring all of you amazing folks to the table and create a strategy to engage in mid-to-late Spring in addressing the homeless encampments along our freeways surrounding DTLA. We will be taking a holistic approach - Services, Clean Up, Housing, Storage, and addressing the underpasses/areas for lighting/park needs for our future needs.

We would like to have our first meeting March 14, 2018 at 1030AM here in City Hall, 4th Floor Media Room.

Please confirm your willingness to sit on the Task Force and attendance at our first meeting. I look forward to hearing from you and have your strategic help!

Best,

Joella Hopkins

We will be taking a holistic approach - Services, Clean Up, Housing, Storage, and addressing the underpasses/areas for lighting/park needs for our future needs.

We would like to have our first meeting March 14, 2018 at 1030AM here in City Hall, 4th Floor Media Room.

Please confirm your willingness to sit on the Task Force and attendance at our first meeting. I look forward to hearing from you and have your strategic help!

Best,

Joella Hopkins

Subject: 101-110-10 Encampment Coalition / Task Force

Good Afternoon. I hope this message finds you well.

I am reaching out to have you join our 101-110-10 Encampment Coalition/Task Force. We want to bring all of you amazing folks to the table and create a strategy to engage in mid-to-late Spring in addressing the homeless encampments along our freeways surrounding DTLA. We will be taking a holistic approach - Services, Clean Up, Housing, Storage, and addressing the underpasses/areas for lighting/park needs for our future needs.

We would like to have our first meeting March 14, 2018 at 1030AM here in City Hall, 4th Floor Media Room.

Please confirm your willingness to sit on the Task Force and attendance at our first meeting. I look forward to hearing from you and have your strategic help!

Best,

Captain Rimkunas,

Thank you and Sgt. Garcia for meeting with us yesterday. Per our meeting please see attached site plan for entire ROW DTLA property and 7th St Produce Market with traffic arrows to assist you in future patrols.

As discussed I'll reach out to officer Hyland to schedule a meeting next week to meet with our entire security team and go over some of the basics to help deter activity tenants have been reporting.

Also, I have a tentative date for our next tenant meeting on **Wednesday, April 4th at 11am**, please let me know if this works for you and Sgt. Garcia to attend and meet with our tenants?

Lastly, please refer me to team working with LA Wholesale Produce Market on their security/parking plan as we may be interested in refreshing our own in partnership with LAPD.

If you need anything else or we can assist you in any way please let me know.

Thank you,

CITY CONTROLLER DISCUSSES Homeless Encampments with Downtown Industrial BID Board

This past September City Controller Ron Galperin released an extensive and illuminating report on "the humanitarian crisis that persists on our streets across Los Angeles," that is, homeless encampments. The study evaluates the impact of current City guidelines, practices, legal challenges, ordinances and City resources relating to homeless encampments.

Flower Areas Cleaned Up!

Thanks to a great team effort led by the DIBID along with L A City Bureau of Sanitation (BOS) and NASA Services, the December holidays saw a dramatic decrease of recyclable waste and trash dumped on sidewalks streets and alleys in our DIBID area.

Months ago flower merchants along San Pedro Street were routinely dumping flower discards and cardboard out onto the sidewalks, alleys and even the street itself. The problem reached a crisis point in May leading up to Mother’s Day, when we removed five tons of merchant-generated trash on one day from one square block!

Maintenance Service Requests

The graphics below document the level of service the DIBID is providing to keep the district clean and safe. This past quarter October - December 2017, trash collected by tonnage was up 34% over this quarter in 2016, averaging 150 tons per month and well above any quarter for the past two years.

Tons of Trash Collected

NEW CHRYSLIS Clean Team Hard At Work!

With fresh energy and perspective, Chrysalis, the DIBID's new maintenance partner rolled out a massive districtwide street cleanup effort on October 30. A downtown-based non-profit, Chrysalis provides job training and placement for low-income and/or formally homeless individuals. Chrysalis gained its deep understanding of what it takes to keep the downtown streets clean as the maintenance partner for five other downtown LA BIDs and 17 districts city-wide.

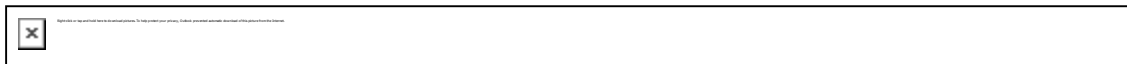

[Read More](#)

SECURITY Team Contract Renewed

The DIBID's public safety officers and sidewalk clean team wish you a happy and safe 2018! The DIBID renewed has its contract with Allied Universal security services, the nation's largest provider of safety and security services. The company offers significant expertise in BID security, also providing public safety officers for the Downtown Center and Fashion District BIDs.

Good afternoon,

We have received several messages regarding our meeting time. Just as a reminder the meeting time was changed to 8:00am on January 15.

I understand this a concern for some of you. With that said, we will ask that the meeting time be brought up again for vote.

Thank you in advance.

Subject: 550 Crocker Street

Dear City Officials and Officers of Los Angeles,

Can you send over a team to have these homeless tents removed? We need this sidewalk open, so we can have safe access between our two lots. In addition, our customers don't feel safe when they see this right in front of our building.

They are setting up mattresses and sofas right in front, and this is very unnecessary. There is a tarp tied to our gate right now, and this is not safe for any one.

We are seeing more and more tents set up as the day passes, so please help us before the situation becomes unmanageable.

Our company is at such an economically difficult time right now, and this situation makes everything much worse. Even as our taxes raise every year, we pay our taxes and dues to the city. However, the homeless encampments, safety, health hazard issues just get worse and worse. We can't figure out why we have no right or say in this. It's just unfortunate how we have to bear with all the consequences when we are doing our duty to be rightful citizens here.

We know you are all very busy, and it's a hard situation for everyone. We tried to approach these people directly, but it only gets worse as we are at direct danger when we do. Our neighbors were threatened with a knife pointed at them when they had approached one of these encampments. Therefore, we can only rely on your help.

We would truly appreciate your response and help as soon as possible.

Thank you!

--

Rose

Subject: 550 Crocker Street

Dear City Officials and Officers of Los Angeles,

Can you send over a team to have these homeless tents removed? We need this sidewalk open, so we can have safe access between our two lots. In addition, our customers don't feel safe when they see this right in front of our building.

They are setting up mattresses and sofas right in front, and this is very unnecessary. There is a tarp tied to our gate right now, and this is not safe for any one.

We are seeing more and more tents set up as the day passes, so please help us before the situation becomes unmanageable.

Our company is at such an economically difficult time right now, and this situation makes everything much worse. Even as our taxes raise every year, we pay our taxes and dues to the city. However, the homeless encampments, safety, health hazard issues just get worse and worse. We can't figure out why we have no right or say in this. It's just unfortunate how we have to bear with all the consequences when we are doing our duty to be rightful citizens here.

We know you are all very busy, and it's a hard situation for everyone. We tried to approach these people directly, but it only gets worse as we are at direct danger when we do. Our neighbors were threatened with a knife pointed at them when they had approached one of these encampments. Therefore, we can only rely on your help.

We would truly appreciate your response and help as soon as possible.

Thank you!

Dear All,

We have the same problem at 751 Crocker Street and it has gotten worse over time.

Approx 6 months ago, detectives requested they have access to our security footage because a transient was found stabbed to death in front of our entryway on Crocker.

Also approx 6 months ago, the city was still able to come pressure wash our sidewalks. Over the last few months, a large community of tents, couches, mattresses and cardboard homes have been set up along our entire wall on Crocker. We also returned over one weekend to see our wall on Agatha charred and burnt black. If the fire had not been stopped in time, it may have damaged millions of dollars in property and merchandise.

Our parking lot in the alley is constantly filled with urine, smeared feces, littered with trash and is a regular hangout spot for homeless and drug users. Employees and customers are afraid to park in our lot.

Although I feel for the homeless population, this is a major health concern especially with the recent outbreak of Hepatitis A fueled by unsanitary conditions (not to mention other airborne diseases we can contract or track home to our families and pets). I urge the city PLEASE find a solution for this growing problem in DTLA ASAP.

Dear City Officials and Officers of Los Angeles,

Can you send over a team to have these homeless tents removed? We need this sidewalk open, so we can have safe access between our two lots. In addition, our customers don't feel safe when they see this right in front of our building.

They are setting up mattresses and sofas right in front, and this is very unnecessary. There is a tarp tied to our gate right now, and this is not safe for any one.

We are seeing more and more tents set up as the day passes, so please help us before the situation becomes unmanageable.

Our company is at such an economically difficult time right now, and this situation makes everything much worse. Even as our taxes raise every year, we pay our taxes and dues to the city. However, the homeless encampments, safety, health hazard issues just get worse and worse. We can't figure out why we have no right or say in this. It's just unfortunate how we have to bear with all the consequences when we are doing our duty to be rightful citizens here.

We know you are all very busy, and it's a hard situation for everyone. We tried to approach these people directly, but it only gets worse as we are at direct danger when we do. Our neighbors were threatened with a knife pointed at them when they had approached one of these encampments. Therefore, we can only rely on your help.

We would truly appreciate your response and help as soon as possible.

Thank you!

--
Rose

Good morning Officer Contreras.

In the alley depicted in the photo (1123 S. Wall) and located on the Newton side of our District, the waste haulers are now refusing to enter said alley to empty the trash receptacles. If you recall, we discussed this location with you in person and also on the phone about having your HOPE Team schedule this alley for an enforcement endeavor. As you can clearly see by the photo, the problem has gotten much larger and the tents are now not only affixed to the bins but they also surround them which, again, makes access & trash pickup virtually impossible. Also, please note the scorching on the adjacent business walls. There have been several encampment fires in this alley and the owners of said buildings fear that their buildings are going to also burn. To prevent such loss on account of the recklessness of the tent dwellers and to make the alley accessible to commerce, the property owners have installed gates on the 11th and 12th Street sides of the alley that the Fashion BID is going to maintain.

We are again asking that the HOPE Team schedule an enforcement action in this alley. If we can have this roadway cleared of the tents under the auspices of the HOPE Team, the BID will then follow your efforts by using our own machines to disinfect and pressure wash the area. I discussed this issue with Commander Choi in December and have Cc'd him per his request.

Look forward to hearing from you and/or any other member of the HOPE Team.

Hello Captain!

I'm hoping you can help us out with this alley. We've been trying to get it cleaned up for months. The waste haulers are refusing to enter the alley to empty the trash bins of property/business owners and the deliveries cannot get down the alleys. I've attached a photo.

The alley between 11th and 12th streets. The tents need to be removed. Any suggestions are welcome!

Thanks!
Rena

Good morning Officer Contreras.

In the alley depicted in the photo (1123 S. Wall) and located on the Newton side of our District, the waste haulers are now refusing to enter said alley to empty the trash receptacles. If you recall, we discussed this location with you in person and also on the phone about having your HOPE Team schedule this alley for an enforcement endeavor. As you can clearly see by the photo, the problem has gotten much larger and the tents are now not only affixed to the bins but they also surround them which, again, makes access & trash pickup virtually impossible. Also, please note the scorching on the adjacent business walls. There have been several encampment fires in this alley and the

owners of said buildings fear that their buildings are going to also burn. To prevent such loss on account of the recklessness of the tent dwellers and to make the alley accessible to commerce, the property owners have installed gates on the 11th and 12th Street sides of the alley that the Fashion BID is going to maintain.

We are again asking that the HOPE Team schedule an enforcement action in this alley. If we can have this roadway cleared of the tents under the auspices of the HOPE Team, the BID will then follow your efforts by using our own machines to disinfect and pressure wash the area. I discussed this issue with Commander Choi in December and have Cc'd him per his request.

Look forward to hearing from you and/or any other member of the HOPE Team.

Hello Captain!

I'm hoping you can help us out with this alley. We've been trying to get it cleaned up for months. The waste haulers are refusing to enter the alley to empty the trash bins of property/business owners and the deliveries cannot get down the alleys. I've attached a photo.

The alley between 11th and 12th streets. The tents need to be removed. Any suggestions are welcome!

Thanks!
Rena

Good morning Officer Contreras.

In the alley depicted in the photo (1123 S. Wall) and located on the Newton side of our District, the waste haulers are now refusing to enter said alley to empty the trash receptacles. If you recall, we discussed this location with you in person and also on the phone about having your HOPE Team schedule this alley for an enforcement endeavor. As you can clearly see by the photo, the problem has gotten much larger and the tents are now not only affixed to the bins but they also surround them which, again, makes access & trash pickup virtually impossible. Also, please note the scorching on the adjacent business walls. There have been several encampment fires in this alley and the owners of said buildings fear that their buildings are going to also burn. To prevent such loss on account of the recklessness of the tent dwellers and to make the alley accessible to commerce, the property owners

have installed gates on the 11th and 12th Street sides of the alley that the Fashion BID is going to maintain.

We are again asking that the HOPE Team schedule an enforcement action in this alley. If we can have this roadway cleared of the tents under the auspices of the HOPE Team, the BID will then follow your efforts by using our own machines to disinfect and pressure wash the area . I discussed this issue with Commander Choi in December and have Cc'd him per his request.

Look forward to hearing from you and/or any other member of the HOPE Team.

Rose,

Please contact the *Urban Forestry Division*
1149 South Broadway Street, 4th Floor
Los Angeles, CA 90015
(213) 847-3077

7:00AM - 3:30PM
Monday - Friday

They can assist you with information on the rules and regulations related to street trees. Additionally, I have included Mr. Tim Tyson, Chief Forester and manager of the Urban Forestry Division in this email.

Thank you

Gary

Hello everyone,

I just received an updated calendar for clean-ups and power washing at Central Station for 2018. Facilities Management Division sends their apologies for the delay. If there is any issues, please let me know. If you wish me to send a copy to anyone, also let me know. I appreciate the partnerships we have forged and look forward to 2018. Please call if you need anything . Take care, Mike

Hello Officers,

Can you stop by to have these tents removed? They're probably the biggest tents we
have seen in front of our building and gates so far. Again, these tent are safety hazards
for all of us here.

Thank you!

Subject: Re: 550 Crocker Street

Hello Officers,

Can you stop by to have these tents removed? They're probably the biggest tents we have seen in front of our building and gates so far. Again, these tent are safety hazards for all of us here.

Thank you!

Hello Officers,

Can you stop by to have these tents removed? They're probably the biggest tents we have seen in front of our building and gates so far. Again, these tent are safety hazards for all of us here.

Thank you!

To whom it may concern:

My name is Rose, and we run a business on 550 Crocker Street.

This is concerning the new RecycLA trash bin roll outs. We just received our new trashcans from NASA, but we are in utter shock as to how little the bin is (96 gal) and how much we are paying for them. Before we were forced into this program, we were paying around the same for a 3 yard bin with WM.

We find it quite unfair how so many limitations and restrictions are put on the business owners in this area. It doesn't make sense that we pay all these taxes and have absolutely no say whatsoever. The business is very slow for us, and we have added daily stress and trauma due to the unfortunate circumstances of this area.

The new personal hygiene station on our block has not helped us out at all. The trash and defecation/urination situation have gotten worse. The promises that were made in the beginning have not been met. The station is basically a facade to show that the city is "trying."

Trash is accumulated daily because the homeless throw trash over and under our gates. How does one expect us to clean up all this trash daily and utilize these little bins? There is no way we are going to pay more monthly for the bigger bins because the pricing tier is ridiculous, it's way out of budget, and just completely unfair.

Please help us out!!

Good morning,

Happy New Year. Hope everyone enjoyed the holidays. Time to get back into the flow of things.

As a reminder, we will have our 1st C-PAB meeting of the year on January 18th @ 0930hrs at Central Station Roll Call.

If anyone has any idea or concerns please contact myself or my partner Officer Ortega.

We hope to see every member at our meetings. With that, I would like to ask that everyone bring their C-PAB ID's so we could renew or update information on the ID's

Also, anyone who does not attend the January 18th meeting will no longer be considered a C-PAB member and would need to re-submit the necessary application.

Members unable to attend, would need to contact me to make arrangements.

We will also have applications available for anyone wishing to become a C-PAB member.

Thank you

Jorge Zambrano

Good morning,

Happy New Year. Hope everyone enjoyed the holidays. Time to get back into the flow of things.

As a reminder, we will have our 1st C-PAB meeting of the year on January 18th @ 0930hrs at Central Station Roll Call.

If anyone has any idea or concerns please contact myself or my partner Officer Ortega.

We hope to see every member at our meetings. With that, I would like to ask that everyone bring their C-PAB ID's so we could renew or update information on the ID's

Also, anyone who does not attend the January 18th meeting will no longer be considered a C-PAB member and would need to re-submit the necessary application.

Members unable to attend, would need to contact me to make arrangements.

We will also have applications available for anyone wishing to become a C-PAB member.

Thank you

Jorge Zambrano
